The Journal of THORACIC AND CARDIOVASCULAR SURGERY

Official organ, The American Association for Thoracic Surgery and The Samson Thoracic Surgical Society

Editor BRIAN BLADES, *Washington, D. C.*

Associate editors THOMAS H. BURFORD, *St. Louis*
PAUL ADKINS, *Washington, D. C.*

Advisory editorial board
RALPH D. ALLEY, *Albany*
EDWARD J. BEATTIE, JR., *New York*
O. THERON CLAGETT, *Rochester, Minn.*
DONALD B. EFFLER, *Syracuse*
HERMES C. GRILLO, *Boston*
JOHN W. KIRKLIN, *Birmingham*
HIRAM T. LANGSTON, *Chicago*
GEORGE G. LINDESMITH, *Los Angeles*
GEORGE J. MAGOVERN, *Pittsburgh*
HERBERT C. MAIER, *New York*
JAMES R. MALM, *New York*
DWIGHT C. McGOON, *Rochester, Minn.*
THOMAS F. NEALON, JR., *New York*
DONALD L. PAULSON, *Dallas*
FREDERICK G. PEARSON, *Toronto*
DAVID C. SABISTON, JR., *Durham, N. C.*
PAUL C. SAMSON, *Oakland*
FRANK C. SPENCER, *New York*

Editorial consultant LEO ELOESSER, *Tacambaro, Mexico*

EVARTS A. GRAHAM, *Editor, 1931-1957*
EMILE HOLMAN, *Editor, 1957-1962*

Subject index*

A

Aberrant (aortic) intramural left coronary artery, left main coronary bypass for (Sacks et al.), 733

Activation, atrial, before, during, and after Mustard operation, intraoperative mapping of (Wittig et al.), 1

Activity, electrical, of revascularized myocardium, effects of coronary bypass surgery on: immediate and early postoperative observations (Sung et al.), 269

Acute myocardial infarction, early operative intervention for complications of (Wellons et al.), 763

Adolescents and children, valve replacement in (Mathews et al.), 872

Aggregation, leukocytic, intravascular, pulmonary, during cardiopulmonary bypas, prostaglandin influence on (Bolanowski et al.), 221

Air collections, evacuation of pericardial, anterior mediastinal, and peripleural, in neonatal respiratory distress (Reiffel and Priebe), 868

Allotransplantation, lung, canine, restoration of bronchial artery circulation after (Siegelman et al.), 792

Alopecia, occipital (Eldred), 322 (letter)

American Association for Thoracic Surgery: Announcement of 1977 Annual Meeting, 155, 323, 483

Announcement of 1978 Annual Meeting, 815, 951

Graham Traveling Fellowship, 952

Board of Thoracic Surgery: Notice of examination, 158, 326

Anastomosis, coronary artery–bypass graft, occlusive changes at: morphologic study of 95 grafts (Griffith et al.), 668

Anatomy, artery, coronary, on survival following resection of left ventricular aneurysms and chronic infarcts, influence of (Brawley et al.), 120

Aneurysm(s) of descending thoracic aorta, results of use of TDMAC-heparin shunt in surgery of (Lawrence et al.), 393

ventricular, left, and chronic infarcts, influence of coronary artery anatomy on survival following resection of (Brawley et al.), 120

Aneurysmectomy, ventricular, and aorta-coronary bypass, long-term clinical and hemodynamic studies after (Aranda et al.), 772

Angina, unstable, selected by exclusion of myocardial infarction, perioperative mortality rate in patients with (Klein et al.), 253

Anomalous origin of left coronary artery from pulmonary artery: case report and review of literature concerning teen-agers and adults (Wilson et al.), 887

pulmonary venous drainage, total, unusual complication of: gastrointestinal hemorrhage (King and Marchildon), 316

systemic venous connection, total, common atrium, and partial atrioventricular canal: case report of successful surgical correction (Krayenbuhl and Lincoln), 686

Anomaly(ies), arch, aortic, in children and infants (Binet and Langlois), 248

Ebstein's, surgical treatment of (Jugdutt et al.), 114

Antibiotic prophylaxis for open-heart surgery (Myerowitz et al.), 625

Antibiotics, prophylactic, controlled study evaluating: postoperative chest wound infections in patients requiring coronary bypass (Sutherland et al.), 944

Antidiuretic hormone levels during cardiopulmonary bypass (Philbin et al.), 145

Antigen, cancer, lung, during Levamisole immunotherapy, in vitro evidence for increased cellular immunity to (Urist et al.), 189

Aorta, ascending, and aortic valve following blunt chest trauma, traumatic rupture of (Charles et al.), 208

by partial-occlusion clamp during aorta-coronary bypass, injury to (Boruchow et al.), 303

–coronary artery vein grafts, late lesions in (Barboriak et al.), 596

bypass grafts, coagulation factors influencing thrombosis of (Zajtchuk et al.), 309

patterns of patency of 596 vein grafts up to seven years after (Lawrie et al.), 443

and ventricular aneurysmectomy, long-term clinical and hemodynamic studies after (Aranda et al.), 772

thoracic, descending, heparinless femoral venoarterial bypass without oxygenator for surgery on (May et al.), 387

results of use of TDMAC-heparin shunt in surgery of aneurysms of (Lawrence et al.), 393

Aortic arch anomalies in children and infants (Binet and Langlois), 248

dissection, advanced, simple cannulation technique for perfusion problems in (Kärkölä et al.), 110

insufficiency and ventricular septal defect: surgical treatment (Moreno-Cabral et al.), 358

intra-, balloon, unidirectional, reversed, increased cardiac output by downstream pumping with (Pooley et al.), 647

valve and ascending aorta following blunt chest trauma, traumatic rupture of (Charles et al.), 208

fenestrated, spontaneous rupture of: surgical treatment (Morán et al.), 716

Magovern-Cromie, thirteen-year review of (Magovern et al.), 64

replacement, significance of intraoperative ventricular fibrillation during (Spanos et al.), 605

surgery, myocardial preservation during: assessment of five techniques by cellular chemical and biophysical methods (Canković-Darracott et al.), 699

tilting disc, Björk-Shiley, intraoperative hemodynamic evaluation of (Larmi et al.), 712

xenografts, porcine, long-term experience with (Stinson et al.), 54

venting: comparison of vent effectiveness (Marco and Barner), 287

*January, pp. 1-164; February, pp. 165-326; March, pp. 327-488; April, pp. 489-652; May, pp. 653-816; June, pp. 817-978.

Arch anomalies, aortic, in children and infants (Binet and Langlois), 248
Arrest, cardiac, ischemic, myocardial protection during: possible hazard with calcium-free cardioplegic infusates (Jynge et al.), 848
Arrested, beating, and fibrillating heart, adequately perfused, I. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Buckberg et al.), 87
hearts, profound topical hypothermia during ischemia in, V. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Nelson et al.), 201
Arrhythmias, tachy-, supraventricular, surgical treatment of (Sealy et al.), 511
Arterial prostheses, infected, of expanded polytetrafluoroethylene (Gore-Tex), behavior of (Weiss et al.), 630
stenoses, noncritical, multiple, in pathogenesis of ischemia, role of (Karayannacos et al.), 458
Arteriosus, truncus, management of infected Hancock prosthesis after repair of (Moseley et al.), 306
types II and III, surgical correction of (Griepp et al.), 345
Artery(ies) anatomy, coronary, on survival following resection of left ventricular aneurysms and chronic infarcts, influence of (Brawley et al.), 120
brachial, catheter injuries of, surgical management of (Karmody et al.), 149
bypass, coronary, on late myocardial infarction, impact of (Ullyot et al.), 165
graft anastomosis, coronary, occlusive changes at: morphologic study of 95 grafts (Griffith et al.), 668
surgery, coronary, current practice of: results of national survey (Miller et al.), 75
on hemodynamic parameters and derived indices of myocardial function, effects of (Santos et al.), 231
in patients seventy years of age and older (Gann et al.), 237
circulation, bronchial, after canine lung allotransplantation, restoration of (Siegelman et al.), 792
coronary, circumflex, effects of isoproterenol and dopamine on regional myocardial blood flow after stenosis of (McClenathan et al.), 431
left, intramural, aberrant (aortic), left main coronary bypass for (Sacks et al.), 733
from pulmonary artery, anomalous origin of: case report and review of literature concerning teen-agers and adults (Wilson et al.), 887
and peripheral vascular disease, coexistent, severe, management of patients with (Reis and Hannah), 909
single, with fistula to main pulmonary artery in patient with tetralogy of Fallot (Brenner et al.), 738
great, simple d-transposition of: results of early balloon septotomy followed by two-stage surgical correction (Kratz et al.), 707
transposition of, anatomic correction of (Kreutzer et al.), 538
d-transposition of, subpulmonary stenosis, and complete form of atrioventricular canal, coexisting, orthoterminal correction of (Gonzalez-Lavin et al.), 694
"jump" grafts, saphenous vein–coronary, mechanisms of occlusion of (Hutchins and Bulkley), 660
pulmonary, diminutive, staged surgical management of pulmonary atresia with (Gill et al.), 436
Artery(ies)—Cont'd
repair, pulmonary, trans–, of ventricular septal defect associated with congenitally corrected transposition of great arteries (Olinger and Maloney), 353
spasm, coronary: medical management, surgical denervation, and autotransplantation (Clark et al.), 332
stenosis, coronary, in short-term and long-term studies in dogs, hemodynamic effects of controlled degrees of (Folts et al.), 722
vein grafts, aorta–coronary, late lesions in (Barboriak et al.), 596
Artificial heart, total, survival for 145 days with (Kasai et al.), 637
Aspiration biopsy, percutaneous, of nodular lung lesions (Meyer et al.), 787
Atresia, pulmonary, with diminutive pulmonary arteries, staged surgical management of (Gill et al.), 436
Atrial activation before, during, and after Mustard operation, intraoperative mapping of (Wittig et al.), 1
hypothermia, topical, in normothermic beating hearts, IV. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Cooper et al.), 195
Atrioventricular canal, complete form of, d-transposition of great arteries, and subpulmonary stenosis, coexisting, orthoterminal correction of (Gonzalez-Lavin et al.), 694
partial, total anomalous systemic venous connection, and common atrium: case report of successful surgical correction (Krayenbuhl and Lincoln), 686
recent results after repair of (Kahn et al.), 413
conduction system electrograms, specialized, during open-heart surgery, signal enhancement for detection of (Schatz et al.), 583
valves with porcine xenograft (Hancock) valves, evaluation of hemolysis following replacement of (Rhodes and McIntosh), 312
Atrium, common, total anomalous systemic venous connection, and partial atrioventricular canal: case report of successful surgical correction (Krayenbuhl and Lincoln), 686
Autotransplantation, surgical denervation, and medical management: coronary artery spasm (Clark et al.), 332

B

Balloon, intra-aortic, unidirectional, reversed, increased cardiac output by downstream pumping with (Pooley et al.), 647
pumping, intra-aortic (Kayser), 487 (letter); Reply (Bolooki), 487
septotomy, early, followed by two-stage surgical correction, results of: simple d-transposition of great arteries (Kratz et al.), 707
Beating, fibrillating, and arrested heart, adequately perfused, I. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Buckberg et al.), 87
hearts, continually perfused, ischemia during moderate hypothermia in, II. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (McConnell et al.), 95
normothermic, topical atrial hypothermia in, IV. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Cooper et al.), 195
Benign disease, esophageal reconstruction for: technical considerations (Orringer et al.), 807
Berry, Frank Brown (1892-1976), 319 (obit.)

Biopsy, aspiration, percutaneous, of nodular lung lesions (Meyer et al.), 787
Björk-Shiley heart valve, radiopaque marker in tilting disc of: evaluation of in vivo prosthetic valve function by cineradiography (Björk et al.), 563
tilting disc aortic valve, intraoperative hemodynamic evaluation of (Larmi et al.), 712
Blood flow, coronary, and myocardial metabolism, effects of ventricular fibrillation on (Grover et al.), 616
and metabolism, myocardial, regional, during cardiopulmonary bypass, studies of effects of hypothermia on. I. Adquately perfused beating, fibrillating, and arrested heart (Buckberg et al.), 87
II. Ischemia during moderate hypothermia in continually perfused beating hearts (McConnell et al.), 95
III. Effects of temperature, time, and perfusion pressure in fibrillating hearts (Brazier et al.), 102
IV. Topical atrial hypothermia in normothermic beating hearts (Cooper et al.), 195
V. Profound topical hypothermia during ischemia in arrested hearts (Nelson et al.), 201
myocardial, regional, after stenosis of circumflex coronary artery, effects of isoproterenol and dopamine on (McClenathan et al.), 431
loss and heparinization, intraoperative, following cardiopulmonary bypass surgery, monitoring of (Babka et al.), 780
volume, pulmonary, and its significance in pulmonary hemodynamics immediately after mitral commissurotomy (Sakamoto and Yamada), 578
Brachial artery, catheter injuries of, surgical management of (Karmody et al.), 149
Bronchial artery circulation after canine lung allotransplantation, restoration of (Siegelman et al.), 792
carcinoma and regional lymph nodes as putative immune response of host to tumor, histology of (Di Paola et al.), 531
Bronchoplastic procedures for lung cancer (Naruke et al.), 927
Bundle, His, study of methods for surgical interruption of (Sealy et al.), 424
Bypass, aorta-coronary, injury to ascending aorta by partial-occlusion clamp during (Boruchow et al.), 303
patterns of patency of 596 vein grafts up to seven years after (Lawrie et al.), 443
and ventricular aneurysmectomy, long-term clinical and hemodynamic studies after (Aranda et al.), 772
artery, coronary, on late myocardial infarction, impact of (Ullyot et al.), 165
cardiopulmonary, antidiuretic hormone levels during (Philbin et al.), 145
with crystalloid and colloid hemodilution on myocardial extravascular water, effects of (Laks et al.), 129
in infants under four months of age (Sugimura and Starr), 894
myocardial ischemia during: hazards of ventricular fibrillation in presence of critical coronary stenosis (Ciardullo et al.), 746
potassium replacement during (Babka and Pifarré), 212
prediction of postoperative potassium excretion after (Patrick and Sivapragasam), 559
prostaglandin influence on pulmonary intravascular leukocytic aggregation during (Bolanowski et al.), 221
studies of effects of hypothermia on regional myocardial blood flow and metabolism during. I. Adequately perfused beating, fibrillating, and arrested heart (Buckberg et al.), 87
Bypass, cardiopulmonary—Cont'd
II. Ischemia during moderate hypothermia in continually perfused beating hearts (McConnell et al.), 95
III. Effects of temperature, time, and perfusion pressure in fibrillating hearts (Brazier et al.), 102
IV. Topical atrial hypothermia in normothermic beating hearts (Cooper et al.), 195
V. Profound topical hypothermia during ischemia in arrested hearts (Nelson et al.), 201
successful treatment by removal with: septicemia secondary to impacted infected pacemaker wire (Chavez and Conn), 796
total, removal with: retention of pacemaker electrode complicated by *Serratia marcescens* septicemia (Saab et al.), 404
coronary, main, left, for aberrant (aortic) intramural left coronary artery (Sacks et al.), 733
postoperative chest wound infections in patients requiring: controlled study evaluating prophylactic antibiotics (Sutherland et al.), 944
graft(s) anastomosis, coronary artery–, occlusive changes at: morphologic study of 95 grafts (Griffith et al.), 668
aorta-coronary, coagulation factors influencing thrombosis of (Zajtchuk et al.), 309
coronary, patency of (Kayser and Johnson), 321 (letter); Reply (Marco et al.), 321
surgery, artery, coronary, current practice of: results of national survey (Miller et al.), 75
on hemodynamic parameters and derived indices of myocardial function, effects of (Santos et al.), 231
in patients seventy years of age and older (Gann et al.), 237
cardiopulmonary, monitoring of intraoperative heparinization and blood loss following (Babka et al.), 780
coronary, on electrical activity of revascularized myocardium, effects of: immediate and early postoperative observations (Sung et al.), 269
venoarterial, femoral, heparinless, without oxygenator for surgery on descending thoracic aorta (May et al.), 387

C

Cachexia, cardiac, nutritional support in (Blackburn et al.), 489
Calcium-free cardioplegic infusates, possible hazard with: myocardial protection during ischemic cardiac arrest (Jynge et al.), 848
Canal, atrioventricular, complete form of, d-transposition of great arteries, and subpulmonary stenosis, coexisting, orthoterminal correction of (Gonzalez-Lavin et al.), 694
partial, total anomalous systemic venous connection, and common atrium: case report of successful surgical correction (Krayenbuhl and Lincoln), 686
recent results after repair of (Kahn et al.), 413
Cancer antigen, lung, during Levamisole immunotherapy, in vitro evidence for increased cellular immunity to (Urist et al.), 189
lung, bronchoplastic procedures for (Naruke et al.), 927
and carina, resection of (Ishihara et al.), 936
multiorgan scans for staging: correlation with clinical evaluation (Ramsdell et al.), 653
Cannulation technique, simple, for perfusion problems in advanced aortic dissection (Kärkölä et al.), 110
Carbohydrate and lipid metabolism, effects of open-heart surgery on (Nuutinen et al.), 680
in open-heart surgery (Yokota et al.), 543

Carcinogens at specific endobronchial sites in dogs, techniques for localized injections and topical applications of (Okita et al.), 216
Carcinoma, bronchial, and regional lymph nodes as putative immune response of host to tumor, histology of (Di Paola et al.), 531
esophageal, unresectable, Celestin tube palliation of (Kairaluoma et al.), 783
Cardiac arrest, ischemic, myocardial protection during: possible hazard with calcium-free cardioplegic infusates (Jynge et al.), 848
cachexia, nutritional support in (Blackburn et al.), 489
hypothermia, topical, effectiveness of (Stiles et al.), 176
for myocardial preservation (Barner et al.), 856
intra-, shunts, post-traumatic: report of two cases and review of literature (Rayner et al.), 728
output, increased, by downstream pumping with reversed unidirectional intra-aortic balloon (Pooley et al.), 647
states, controlled normal and low, in anesthetized dog, hemodynamic responses to dopamine infusion at (Gooding et al.), 758
by thermodilution after open-heart surgery, monitoring of (Kohanna and Cunningham), 451
pacemaker, lithium iodide–powered: clinical experience with 250 implantations (Burr), 421
prosthetic material, external, successful treatment in presence of: infected mediastinum (Stewart), 801
rhythm following Mustard procedure for transposition of great vessels (Lewis et al.), 919
tamponade, acute, demonstration of depressor reflex in (Friedman et al.), 278
valve surgery, cephalothin prophylaxis in: prospective, double-blind comparison of two-day and six-day regimens (Goldmann et al.), 470
Cardioplegia, potassium-induced, ischemic, cold, myocardial protection with (Roe et al.), 366
Cardioplegic infusates, calcium-free, possible hazard with: myocardial protection during ischemic cardiac arrest (Jynge et al.), 848
Cardiopulmonary bypass, antidiuretic hormone levels during (Philbin et al.), 145
with crystalloid and colloid hemodilution on myocardial extravascular water, effects of (Laks et al.), 129
in infants under four months of age (Sugimura and Starr), 894
myocardial ischemia during: hazards of ventricular fibrillation in presence of critical coronary stenosis (Ciardullo et al.), 746
potassium replacement during (Babka and Pifarré), 212
prediction of postoperative potassium excretion after (Patrick and Sivapragasam), 559
prostaglandin influence on pulmonary intravascular leukocytic aggregation during (Bolanowski et al.), 221
studies of effects of hypothermia on regional myocardial blood flow and metabolism during. I. Adequately perfused beating, fibrillating, and arrested heart (Buckberg et al.), 87
II. Ischemia during moderate hypothermia in continually perfused beating hearts (McConnell et al.), 95
III. Effects of temperature, time, and perfusion pressure in fibrillating hearts (Brazier et al.), 102
IV. Topical atrial hypothermia in normothermic beating hearts (Cooper et al.), 195
Cardiopulmonary bypass—Cont'd
V. Profound topical hypothermia during ischemia in arrested hearts (Nelson et al.), 201
successful treatment by removal with: septicemia secondary to impacted infected pacemaker wire (Chavez and Conn), 796
surgery, monitoring of intraoperative heparinization and blood loss following (Babka et al.), 780
total, removal with: retention of pacemaker electrode complicated by *Serratia marcescens* septicemia (Saab et al.), 404
failure, extracorporeal membrane oxygenator support for: experience in 28 cases (Bartlett et al.), 375
Carina and lung, resection of cancer of (Ishihara et al.), 936
Catheter injuries of brachial artery, surgical management of (Karmody et al.), 149
Caustic stricture of pharynx and esophagus, severe, pharyngogastrostomy for treatment of (Thomas and Dedo), 817
Celestin tube palliation of unresectable esophageal carcinoma (Kairaluoma et al.), 783
Cellular immunity, increased, to lung cancer antigen during Levamisole immunotherapy, in vitro evidence for (Urist et al.), 189
Centers, surgical, open-heart: standards and monitoring (Brewer et al.), 327
Cephalothin prophylaxis in cardiac valve surgery: prospective, double-blind comparison of two-day and six-day regimens (Goldmann et al.), 470
Chest trauma, blunt, traumatic rupture of ascending aorta and aortic valve following (Charles et al.), 208
wound infections, postoperative, in patients requiring coronary bypass: controlled study evaluating prophylactic antibiotics (Sutherland et al.), 944
Child with leukemia, successful treatment of varicella pneumonia with prolonged extracorporeal membrane oxygenation in (Hicks et al.), 297
Children and adolescents, valve replacement in (Mathews et al.), 872
and infants, aortic arch anomalies in (Binet and Langlois), 248
Chylopericardium, idiopathic, isolated (Charnilas et al.), 719
Cineradiography, evaluation of in vivo prosthetic valve function by: radiopaque marker in tilting disc of Björk-Shiley heart valve (Björk et al.), 563
Circulation, artery, bronchial, after canine lung allotransplantation, restoration of (Siegelman et al.), 792
Clamp, partial-occlusion, during aorta-coronary bypass, injury to ascending aorta by (Boruchow et al.), 303
Closure, sternal, new adjunct for: wire holder (Rubio), 449
Coagulation factors influencing thrombosis of aorta-coronary bypass grafts (Zajtchuk et al.), 309
Commissurotomy, mitral, open, prognosis of patients after: actuarial analysis of late results in 100 patients (Housman et al.), 742
pulmonary blood volume and its significance in pulmonary hemodynamics immediately after (Sakamoto and Yamada), 578
Complexes, transposition, conduit repairs of: report of 14 cases (Imamura et al.), 570
Conduction system electrograms, atrioventricular, specialized, during open-heart surgery, signal enhancement for detection of (Schatz et al.), 583
Conduit repairs of transposition complexes: report of 14 cases (Imamura et al.), 570

Congenital heart disease, feeding difficulties in infants with (Pearl), 487 (letter); Reply (Dobell), 488
Congenitally corrected transposition of great arteries, trans–pulmonary artery repair of ventricular septal defect associated with (Olinger and Maloney), 353
Connection, venous, systemic, anomalous, total, common atrium, and partial atrioventricular canal: case report of successful surgical correction (Krayenbuhl and Lincoln), 686
Consumption, oxygen, myocardial, hemodynamic parameters, and inotropic state owing to intravenous application of nitroglycerin, changes in (Hempelmann et al.), 836
Coronary artery anatomy on survival following resection of left ventricular aneurysms and chronic infarcts, influence of (Brawley et al.), 120
–bypass graft anastomosis, occlusive changes at: morphologic study of 95 grafts (Griffith et al.), 668
on late myocardial infarction, impact of (Ullyot et al.), 165
surgery, current practice of: results of national survey (Miller et al.), 75
on hemodynamic parameters and derived indices of myocardial function, effects of (Santos et al.), 231
in patients seventy years of age and older (Gann et al.), 237
circumflex, effects of isoproterenol and dopamine on regional myocardial blood flow after stenosis of (McClenathan et al.), 431
"jump" grafts, saphenous vein–, mechanisms of occlusion of (Hutchins and Bulkley), 660
left, from pulmonary artery, anomalous origin of: case report and review of literature concerning teen-agers and adults (Wilson et al.), 887
and peripheral vascular disease, coexistent, severe, management of patients with (Reis and Hannah), 909
single, with fistula to main pulmonary artery in patient with tetralogy of Fallot (Brenner et al.), 738
spasm: medical management, surgical denervation, and autotransplantation (Clark et al.), 332
stenosis in short-term and long-term studies in dogs, hemodynamic effects of controlled degrees of (Folts et al.), 722
vein grafts, aorta–, late lesions in (Barboriak et al.), 596
blood flow and myocardial metabolism, effects of ventricular fibrillation on (Grover et al.), 616
bypass, aorta-, injury to ascending aorta by partial-occlusion clamp during (Boruchow et al.), 303
patterns of patency of 596 vein grafts up to seven years after (Lawrie et al.), 443
and ventricular aneurysmectomy, long-term clinical and hemodynamic studies after (Aranda et al.), 772
grafts, aorta-, coagulation factors influencing thrombosis of (Zajtchuk et al.), 309
patency of (Kayser and Johnson), 321 (letter); Reply (Marco et al.), 321
main, left, for aberrant (aortic) intramural left coronary artery (Sacks et al.), 733
postoperative chest wound infections in patients requiring: controlled study evaluating prophylactic antiobiotics (Sutherland et al.), 944
surgery on electrical activity of revascularized myocardium, effects of (Sung et al.), 269
steal by internal mammary graft with subclavian stenosis (Brown), 690
Coronary—Cont'd
stenosis, critical, hazards of ventricular fibrillation in presence of: myocardial ischemia during cardiopulmonary bypass (Ciardullo et al.), 746
Correction, anatomic, of transposition of great arteries (Kreutzer et al.), 538
orthoterminal, of coexisting d-transposition of great arteries, subpulmonary stenosis, and complete form of atrioventricular canal (Gonzalez-Lavin et al.), 694
surgical, of double-outlet right ventricle with noncommitted ventricular septal defect (Kirklin and Castaneda), 399
two-stage, results of early balloon septotomy followed by: simple d-transposition of great arteries (Kratz et al.), 707
of types II and III truncus arteriosus (Griepp et al.), 345
Correspondence
Feeding difficulties in infants with congenital heart disease (Pearl), 487
Reply (Dobell), 488
Intra-aortic balloon pumping (Kayser), 487
Reply (Bolooki), 487
Myocardial preservation (Viljoen), 487
Occipital alopecia (Eldred), 322
Patency of coronary bypass grafts (Kayser and Johnson), 321
Reply (Marco et al.), 321
Transposition of great vessels (Bharati and Lev), 321
Cricotracheal disruption owing to strangulation: report of two cases with successful surgical repair (Gill et al.), 948

D

Defect, septal, ventricular, and aortic insufficiency: surgical treatment (Moreno-Cabral et al.), 358
associated with congenitally corrected transposition of great arteries, trans–pulmonary artery repair of (Olinger and Maloney), 353
noncommitted, surgical correction of double-outlet right ventricle with (Kirklin and Castaneda), 399
and pulmonary hypertension, retransposition of great vessels for transposition with (Mamiya et al.), 340
Denervation, surgical, medical management, and autotransplantation: coronary artery spasm (Clark et al.), 332
Depressor reflex in acute cardiac tamponade, demonstration of (Friedman et al.), 278
Dipyridamole and methylprednisolone on intimal thickening in vein grafts, effects of (Brody et al.), 602
Disease, benign, esophageal reconstruction for: technical considerations (Orringer et al.), 807
coronary artery and peripheral vascular, coexistent, severe, management of patients with (Reis and Hannah), 909
heart, congenital, feeding difficulties in infants with (Pearl), 487 (letter); Reply (Dobell), 488
Disruption, cricotracheal, owing to strangulation (Gill et al.), 948
Dissection, aortic, advanced, simple cannulation technique for perfusion problems in (Kärkölä et al.), 110
Distress, respiratory, neonatal, evacuation of pericardial, anterior mediastinal, and peripleural air collections in (Reiffel and Priebe), 868
Dopamine infusion at controlled normal and low cardiac output states in anesthetized dog, hemodynamic responses to (Gooding et al.), 758
and isoproterenol on regional myocardial blood flow after stenosis of circumflex coronary artery, effects of (McClenathan et al.), 431

Double-outlet right ventricle with noncommitted ventricular septal defect, surgical correction of (Kirklin and Castaneda), 399
repair of (Harvey et al.), 611
Drainage operations, pericardial, in management of uremic pericardial effusion (Fox et al.), 504
venous, pulmonary, anomalous, total, unusual complication of: gastrointestinal hemorrhage (King and Marchildon), 316
Duplicator, pulse, aortic–left ventricular, used in testing prosthetic aortic heart valves (Cornhill), 550

E

Ebstein's anomaly, surgical treatment of (Jugdutt et al.), 114
Effusion complicating esophageal perforation, pericarditis with (Hankins and McLaughlin), 225
pericardial, uremic, pericardial drainage operations in management of (Fox et al.), 504
Elderly patients: *see* Coronary artery bypass surgery in patients seventy years of age and older (Gann et al.), 237
Electrical activity of revascularized myocardium, effects of coronary bypass surgery on: immediate and early postoperative observations (Sung et al.), 269
Electrode, pacemaker, complicated by *Serratia marcescens* septicemia, retention of: removal with total cardiopulmonary bypass (Saab et al.), 404
Electrogram(s), endocardial, ventricular, and pacemaker sensing (Furman et al.), 258
system, conduction, atrioventricular, specialized, during open-heart surgery, signal enhancement for detection of (Schatz et al.), 583
Endobronchial sites, specific, in dogs, techniques for localized injections and topical applications of carcinogens at (Okita et al.), 216
Endocardial electrogram, ventricular, and pacemaker sensing (Furman et al.), 258
Endocarditis, fungal: need for guidelines in evaluating therapy. Experience with two patients previously reported (Galgiani and Stevens), 293
infective: analysis of 54 surgically treated patients (Boyd et al.), 23
valve, prosthetic, case for prompt valve replacement (Saffle et al.), 416
Esophageal carcinoma, unresectable, Celestin tube palliation of (Kairaluoma et al.), 783
perforation, pericarditis with effusion complicating (Hankins and McLaughlin), 225
reconstruction for benign disease: technical considerations (Orringer et al.), 807
Esophagus and pharynx, pharyngogastrostomy for treatment of severe caustic stricture of (Thomas and Dedo), 817
Excretion, potassium, postoperative, after cardiopulmonary bypass, prediction of (Patrick and Sivapragasam), 559
Extracorporeal membrane oxygenation, prolonged, in child with leukemia, successful treatment of varicella pneumonia with (Hicks et al.), 297
oxygenator support for cardiopulmonary failure: experience in 28 cases (Bartlett et al.), 375
Extravascular water, myocardial, effects of cardiopulmonary bypass with crystalloid and colloid hemodilution on (Laks et al.), 129

F

Factors, coagulation, influencing thrombosis of aorta-coronary bypass grafts (Zajtchuk et al.), 309
Failure, cardiopulmonary, extracorporeal membrane oxygenator support for: experience in 28 cases (Bartlett et al.), 375
Fallot, tetralogy of, late results after repair of (Poirier et al.), 900
single coronary artery with fistula to main pulmonary artery in patient with (Brenner et al.), 738
Feeding difficulties in infants with congenital heart disease (Pearl), 487 (letter); Reply (Dobell), 488
Fenestrated aortic valve, spontaneous rupture of: surgical treatment (Morán et al.), 716
Fibrillating, beating, and arrested heart, adequately perfused, I. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Buckberg et al.), 87
hearts, effects of temperature, time, and perfusion pressure in, III. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Brazier et al.), 102
Fibrillation, ventricular, on coronary blood flow and myocardial metabolism, effects of (Grover et al.), 616
intraoperative, during aortic valve replacement, significance of (Spanos et al.), 605
in presence of critical coronary stenosis, hazards of: myocardial ischemia during cardiopulmonary bypass (Ciardullo et al.), 746
Fistula to main pulmonary artery in patient with tetralogy of Fallot, single coronary artery with (Brenner et al.), 738
of sinus of Valsalva (Sanchez et al.), 877
Function of left ventricle, myocardial revascularization for patient with drastic impairment of (Zubiate et al.), 84
myocardial, effects of coronary artery bypass surgery on hemodynamic parameters and derived indices of (Santos et al.), 231
valve, mitral, during surgery following conservative procedures, direct evaluation of (Nair and Yates), 684
prosthetic, in vivo, by cineradiography, evaluation of: radiopaque marker in tilting disc of Björk-Shiley heart valve (Björk et al.), 563
Fungal endocarditis: need for guidelines in evaluating therapy. Experience with two patients previously reported (Galgiani and Stevens), 293

G

Gastrointestinal hemorrhage: unusual complication of total anomalous pulmonary venous drainage (King and Marchildon), 316
Gore-Tex (expanded polytetrafluoroethylene), behavior of infected arterial prostheses of (Weiss et al.), 630
Graft(s) anastomosis, coronary artery–bypass, occlusive changes at: morphologic study of 95 grafts (Griffith et al.), 668
bypass, aorta-coronary, coagulation factors influencing thrombosis of (Zajtchuk et al.), 309
coronary, patency of (Kayser and Johnson), 321 (letter); Reply (Marco et al.), 321
mammary, internal, with subclavian stenosis, coronary steal by (Brown), 690
saphenous vein–coronary artery "jump," mechanisms of occlusion of (Hutchins and Bulkley), 660
vein, aorta–coronary artery, late lesions in (Barboriak et al.), 596

Graft(s)—Cont'd
effects of dipyridamole and methylprednisolone on intimal thickening in (Brody et al.), 602
596, up to seven years after aorta-coronary bypass, patterns of patency of (Lawrie et al.), 443
Granuloma, plasma cell, tracheobronchial (Spoto et al.), 804

H

Hancock (porcine xenograft) valves, evaluation of hemolysis following replacement of atrioventricular valves with (Rhodes and McIntosh), 312
prosthesis, infected, after repair of truncus arteriosus, management of (Moseley et al.), 306
Heart(s), adequately perfused beating, fibrillating, and arrested, I. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Buckberg et al.), 87
arrested, profound topical hypothermia during ischemia in, V. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Nelson et al.), 201
artificial, total, survival for 145 days with (Kasai et al.), 637
beating, continually perfused, ischemia during moderate hypothermia in, II. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (McConnell et al.), 95
normothermic, topical atrial hypothermia in, IV. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Cooper et al.), 195
canine, after 24 hours' preservation and orthotopic transplantation, morphology of (Spray et al.), 880
disease, congenital, feeding difficulties in infants with (Pearl), 487 (letter); Reply (Dobell), 488
fibrillating, effects of temperature, time, and perfusion pressure in, III. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Brazier et al.), 102
human, successful retransplantation of (Copeland et al.), 242
valve replacement with Ionescu-Shiley pericardial xenograft (Ionescu et al.), 31
Hemodilution, crystalloid and colloid, on myocardial extravascular water, effects of cardiopulmonary bypass with (Laks et al.), 129
Hemodynamic and clinical studies, long-term, after ventricular aneurysmectomy and aorta-coronary bypass (Aranda et al.), 772
effects of controlled degrees of coronary artery stenosis in short-term and long-term studies in dogs (Folts et al.), 722
evaluation, intraoperative, of Björk-Shiley tilting disc aortic valve (Larmi et al.), 712
parameters and derived indices of myocardial function, effects of coronary artery bypass surgery on (Santos et al.), 231
inotropic state, and myocardial oxygen consumption owing to intravenous application of nitroglycerin, changes in (Hempelmann et al.), 836
responses to dopamine infusion at controlled normal and low cardiac output states in anesthetized dog (Gooding et al.), 758
Hemodynamics, pulmonary, immediately after mitral commissurotomy, pulmonary blood volume and its significance in (Sakamoto and Yamada), 578
Hemolysis following replacement of atrioventricular valves with porcine xenograft (Hancock) valves, evaluation of (Rhodes and McIntosh), 312
Hemorrhage, gastrointestinal: unusual complication of total anomalous pulmonary venous drainage (King and Marchildon), 316
in patients with hiatal hernia, diagnosis and treatment of (Deveney and Thomas), 497
Heparin-TDMAC shunt in surgery of aneurysms of descending thoracic aorta, results of use of (Lawrence et al.), 393
Heparinization and blood loss, intraoperative, following cardiopulmonary bypass surgery, monitoring of (Babka et al.), 780
Heparinless femoral venoarterial bypass without oxygenator for surgery on descending thoracic aorta (May et al.), 387
Hiatal hernia, diagnosis and treatment of hemorrhage in patients with (Deveney and Thomas), 497
His bundle, study of methods for surgical interuption of (Sealy et al.), 424
Histology of bronchial carcinoma and regional lymph nodes as putative immune response of host to tumor (De Paola et al.), 531
Holder, wire: new adjunct for sternal closure (Rubio), 449
Hormone levels, antidiuretic, during cardiopulmonary bypass (Philbin et al.), 145
Hypertension, pulmonary, and ventricular septal defect, retransposition of great vessels for transposition with (Mamiya et al.), 340
Hypothermia, cardiac, topical, effectiveness of (Stiles et al.), 176
for myocardial preservation (Barner et al.), 856
on regional myocardial blood flow and metabolism during cardiopulmonary bypass, studies of. I. Adequately perfused beating, fibrillating, and arrested heart (Buckberg et al.), 87
II. Ischemia during moderate hypothermia in continually perfused beating hearts (McConnell et al.), 95
III. Effects of temperature, time, and perfusion pressure in fibrillating hearts (Brazier et al.), 102
IV. Topical atrial hypothermia in normothermic beating hearts (Cooper et al.), 195
V. Profound topical hypothermia during ischemia in arrested hearts (Nelson et al.), 201

I

Idiopathic chylopericardium, isolated (Charnilas et al.), 719
Immune response, putative, of host to tumor, histology of bronchial carcinoma and regional lymph nodes as (Di Paola et al.), 531
Immunity, cellular, increased, to lung cancer antigen during Levamisole immunotherapy, in vitro evidence for (Urist et al.), 189
Immunotherapy, Levamisole, in vitro evidence for increased cellular immunity to lung cancer antigen during (Urist et al.), 189
Implantations, 250, clinical experience with: lithium iodide–powered cardiac pacemaker (Burr), 421
Infants and children, aortic arch anomalies in (Binet and Langlois), 248
with congenital heart disease, feeding difficulties in (Pearl), 487 (letter); Reply (Dobell), 488
under four months of age, cardiopulmonary bypass in (Sugimura and Starr), 894

Infarct(s), chronic, and left ventricular aneurysms, influence of coronary artery anatomy on survival following resection of (Brawley et al.), 120
Infarction, myocardial, acute, early operative intervention for complications of (Wellons et al.), 763
perioperative mortality rate in patients with unstable angina selected by exclusion of (Klein et al.), 253
Infected arterial prostheses of expanded polytetrafluoroethylene (Gore-Tex), behavior of (Weiss et al.), 630
Hancock prosthesis after repair of truncus arteriosus, management of (Moseley et al.), 306
impacted pacemaker wire, septicemia secondary to: successful treatment by removal with cardiopulmonary bypass (Chavez and Conn), 796
mediastinum: successful treatment in presence of external cardiac prosthetic material (Stewart), 801
Infections, wound, chest, postoperative, in patients requiring coronary bypass: controlled study evaluating prophylactic antibiotics (Sutherland et al.), 944
Infective endocarditis: analysis of 54 surgically treated patients (Boyd et al.), 23
Infusates, cardioplegic, calcium-free, possible hazard with: myocardial protection during ischemic cardiac arrest (Jynge et al.), 848
Infusion, dopamine, at controlled normal and low cardiac output states in anesthetized dog, hemodynamic responses to (Gooding et al.), 758
Injections, localized, and topical applications of carcinogens at specific endobronchial sites in dogs, techniques for (Okita et al.), 216
Inotropic state, hemodynamic parameters, and myocardial oxygen consumption owing to intravenous application of nitroglycerin, changes in (Hempelmann et al.), 836
Insufficiency, aortic, and ventricular septal defect: surgical treatment (Moreno-Cabral et al.), 358
Interruption, surgical of His bundle, study of methods for (Sealy et al.), 424
Intimal thickening in vein grafts, effects of dipyridamole and methylprednisolone on (Brody et al.), 602
Intra-aortic balloon pumping (Kayser), 487 (letter); Reply (Bolooki), 487
unidirectional, reversed, increased cardiac output by downstream pumping with (Pooley et al.), 647
Intracardiac shunts, post-traumatic (Rayner et al.), 728
Intrathoracic kidney (Moazzenzadeh et al.), 480
Intravascular leukocytic aggregation, pulmonary, during cardiopulmonary bypass, prostaglandin influence on (Bolanowski et al.), 221
Ionescu-Shiley pericardial xenograft, heart valve replacement with (Ionescu et al.), 31
Ischemia in arrested hearts, profound topical hypothermia during, V. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Nelson et al.), 201
during moderate hypothermia in continually perfused beating hearts, II. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (McConnell et al.), 95
effect of perfusate temperature on myocardial protection from (Tyers et al.), 766
myocardial, during cardiopulmonary bypass: hazards of ventricular fibrillation in presence of critical coronary stenosis (Ciardullo et al.), 746
Ischemia—Cont'd
role of multiple noncritical arterial stenoses in pathogenesis of (Karayannacos et al.), 458
Ischemic cardiac arrest, myocardial protection during: possible hazard with calcium-free cardioplegic infusates (Jynge et al.), 848
cold, potassium-induced cardioplegia, myocardial protection with (Roe et al.), 366
Isolated idiopathic chylopericardium (Charnilas et al.), 719
Isoproterenol and dopamine on regional myocardial blood flow after stenosis of circumflex coronary artery, effects of (McClenathan et al.), 431

J

Jones, John C. (1903-1976), 813 (obit.)
"Jump" grafts, saphenous vein–coronary artery, mechanisms of occlusion of (Hutchins and Bulkley), 660

K

Kergin, Frederick Gordon (1907-1974), 320 (obit.)
Kidney, intrathoracic (Moazzenzadeh et al.), 480

L

Leukemia, successful treatment of varicella pneumonia with prolonged extracorporeal membrane oxygenation in child with (Hicks et al.), 297
Leukocytic aggregation, intravascular, pulmonary, during cardiopulmonary bypass, prostaglandin influence on (Bolanowski et al.), 221
Levamisole immunotherapy, in vitro evidence for increased cellular immunity to lung cancer antigen during (Urist et al.), 189
Lipid and carbohydrate metabolism, effects of open-heart surgery on (Nuutinen et al.), 680
in open-heart surgery (Yokota et al.), 543
Lithium iodide–powered cardiac pacemaker: clinical experience with 250 implantations (Burr), 421
Lung allotransplantation, canine, restoration of bronchial artery circulation after (Siegelman et al.), 792
cancer antigen during Levamisole immunotherapy, in vitro evidence for increased cellular immunity to (Urist et al.), 189
bronchoplastic procedures for (Naruke et al.), 972
multiorgan scans for staging: correlation with clinical evaluation (Ramsdell et al.), 653
and carina, resection of cancer of (Ishihara et al.), 936
lesions, nodular, percutaneous aspiration biopsy of (Meyer et al.), 787
Lymph nodes, regional, and bronchial carcinoma as putative immune response of host to tumor, histology of (Di Paola et al.), 531

M

Magovern-Cromie aortic valve, thirteen-year review of (Magovern et al.), 64
Mammary graft, internal, with subclavian stenosis, coronary steal by (Brown), 690
Mapping, intraoperative, of atrial activation before, during, and after Mustard operation (Wittig et al.), 1
Mediastinum, infected: successful treatment in presence of external cardiac prosthetic material (Stewart), 801

Membrane oxygenation, extracorporeal, prolonged, in child with leukemia, successful treatment of varicella pneumonia with (Hicks et al.), 297
oxygenator support, extracorporeal, for cardiopulmonary failure: experience in 28 cases (Bartlett et al.), 375
Metabolism and blood flow, myocardial, regional, during cardiopulmonary bypass, studies of effects of hypothermia on. I. Adequately perfused beating, fibrillating, and arrested heart (Buckberg et al.), 87
II. Ischemia during moderate hypothermia in continually perfused beating hearts (McConnell et al.), 95
III. Effects of temperature, time, and perfusion pressure in fibrillating hearts (Brazier et al.), 102
IV. Topical atrial hypothermia in normothermic beating hearts (Cooper et al.), 195
V. Profound topical hypothermia during ischemia in arrested hearts (Nelson et al.), 201
carbohydrate and lipid, effects of open-heart surgery on (Nuutinen et al.), 680
in open-heart surgery (Yokota et al.), 543
myocardial, and coronary blood flow, effects of ventricular fibrillation on (Grover et al.), 616
Methylprednisolone and dipyridamole on intimal thickening in vein grafts, effects of (Brody et al.), 602
Mitral commissurotomy, open, prognosis of patients after: actuarial analysis of late results in 100 patients (Housman et al.), 742
pulmonary blood volume and its significance in pulmonary hemodynamics immediately after (Sakamoto and Yamada), 578
plication suture: new technique of mitral valve repair (Burr et al.), 589
valve function during surgery following conservative procedures, direct evaluation of (Nair and Yates), 684
replacement, left ventricular rupture as complication of: surgical experience with eight cases and review of literature (Björk et al.), 14
versus reconstruction: analysis of indications and results of mitral valve procedures in consecutive series of 80 patients (Oury et al.), 825
Monitoring of cardiac output by thermodilution after open-heart surgery (Kohanna and Cunningham), 451
of intraoperative heparinization and blood loss following cardiopulmonary bypass surgery (Babka et al.), 780
and standards: open-heart surgical centers (Brewer et al.), 327
Monosporosis, pulmonary, role of surgery in management of: collective review (Jung et al.), 139
Morphology of canine hearts after 24 hours' preservation and orthotopic transplantation (Spray et al.), 880
Multiorgan scans for staging lung cancer: correlation with clinical evaluation (Ramsdell et al.), 653
Mustard operation, intraoperative mapping of atrial activation before, during, and after (Wittig et al.), 1
procedure for transposition of great vessels, cardiac rhythm following (Lewis et al.), 919
Myocardial blood flow and metabolism, regional, during cardiopulmonary bypass, studies of effects of hypothermia on. I. Adequately perfused beating, fibrillating, and arrested heart (Buckberg et al.), 87
II. Ischemia during moderate hypothermia in continually perfused beating hearts (McConnell et al.), 95
III. Effects of temperature, time, and perfusion pressure in fibrillating hearts (Brazier et al.), 102
Myocardial blood flow—Cont'd
IV. Topical atrial hypothermia in normothermic beating hearts (Cooper et al.), 195
V. Profound topical hypothermia during ischemia in arrested hearts (Nelson et al.), 201
regional, after stenosis of circumflex coronary artery, effects of isoproterenol and dopamine on (McClenathan et al.), 431
extravascular water, effects of cardiopulmonary bypass with crystalloid and colloid hemodilution on (Laks et al.), 129
function, effects of coronary artery bypass surgery on hemodynamic parameters and derived indices of (Santos et al.), 231
infarction, acute, early operative intervention for complications of (Wellons et al.), 763
perioperative mortality rate in patients with unstable angina selected by exclusion of (Klein et al.), 253
ischemia during cardiopulmonary bypass: hazards of ventricular fibrillation in presence of critical coronary stenosis (Ciardullo et al.), 746
metabolism and coronary blood flow, effects of ventricular fibrillation on (Grover et al.), 616
oxygen consumption, hemodynamic parameters, and inotropic state owing to intravenous application of nitroglycerin, changes in (Hempelmann et al.), 836
performance early after open-heart operations by vasodilator treatment, control of (Stinson et al.), 523
preservation (Viljoen), 487 (letter)
during aortic valve surgery: assessment of five techniques by cellular chemical and biophysical methods (Cankovic-Darracott et al.), 699
topical cardiac hypothermia for (Barner et al.), 856
protection with cold, ischemic, potassium-induced cardioplegia (Roe et al.), 366
from ischemia, effect of perfusate temperature on (Tyers et al.), 766
during ischemic cardiac arrest: possible hazard with calcium-free cardioplegic infusates (Jynge et al.), 848
revascularization for patient with drastic impairment of function of left ventricle (Zubiate et al.), 84
reoperations for (Irarrazaval et al.), 181
Myocardium, revascularized, effects of coronary bypass surgery on electrical activity of: immediate and early postoperative observations (Sung et al.), 269

N

Neonatal respiratory distress, evacuation of pericardial, anterior mediastinal, and peripleural air collections in (Reiffel and Priebe), 868
Nitroglycerin, changes in hemodynamic parameters, inotropic state, and myocardial oxygen consumption owing to intravenous application of (Hempelmann et al.), 836
Nodes, lymph, regional, and bronchial carcinoma as putative immune response of host to tumor, histology of (Di Paola et al.), 531
Nodular lung lesions, percutaneous aspiration biopsy of (Meyer et al.), 787
Normothermic beating hearts, topical atrial hypothermia in, IV. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Cooper et al.), 195
Nutritional support in cardiac cachexia (Blackburn et al.), 489

John C. Jones (1903-1976), 813
Occipital alopecia (Eldred), 322 (letter)
Occlusion of saphenous vein–coronary artery "jump" grafts, mechanisms of (Hutchins and Bulkley), 660
Occlusive changes at coronary artery–bypass graft anastomosis: morphologic study of 95 grafts (Griffith et al.), 668
Open-heart operations by vasodilator treatment, control of myocardial performance early after (Stinson et al.), 523
surgery, antibiotic prophylaxis for (Myerowitz et al.), 625
carbohydrate and lipid metabolism in (Yokota et al.), 543
effects of (Nuutinen et al.), 680
monitoring of cardiac output by thermodilution after (Kohanna and Cunningham), 451
prevention and treatment of sternum separation following (Robicsek et al.), 267
signal enhancement for detection of specialized atrioventricular conduction system electrograms during (Schatz et al.), 583
surgical centers: standards and monitoring (Brewer et al.), 327
mitral commissurotomy, prognosis of patients after: actuarial analysis of late results in 100 patients (Housman et al.), 742
Orthotopic transplantation and 24 hours' preservation, morphology of canine hearts after (Spray et al.), 880
Output, cardiac, increased, by downstream pumping with reversed unidirectional intra-aortic balloon (Pooley et al.), 647
by thermodilution after open-heart surgery, monitoring of (Kohanna and Cunningham), 451
states, cardiac, controlled normal and low, in anesthetized dog, hemodynamic responses to dopamine infusion at (Gooding et al.), 758
Oxygen consumption, myocardial, hemodynamic parameters, and *inotropic state owing to intravenous application of nitroglycerin*, changes in (Hempelmann et al.), 836
Oxygenation, membrane, extracorporeal, prolonged, in child with leukemia, successful treatment of varicella pneumonia with (Hicks et al.), 297
Oxygenator support, membrane, extracorporeal, for cardiopulmonary failure: experience in 28 cases (Bartlett et al.), 375
for surgery on descending thoracic aorta, heparinless femoral venoarterial bypass without (May et al.), 387

P

Pacemaker, cardiac, lithium iodide–powered: clinical experience *with 250 implantations* (Burr), 421
electrode complicated by *Serratia marcescens* septicemia, retention of: *removal with total cardiopulmonary bypass* (Saab et al.), 404
sensing and ventricular endocardial electrogram (Furman et al.), 258
wire, infected, impacted, septicemia secondary to: successful treatment by removal with cardiopulmonary bypass (Chavez and Conn), 796
Palliation, Celestin tube, of unresectable esophageal carcinoma (Kairaluoma et al.), 783
Patency of coronary bypass grafts (Kayser and Johnson), 321 (letter); Reply (Marco et al.), 321
Patency—Cont'd
of 596 vein grafts up to seven years after aorta-coronary bypass, patterns of (Lawrie et al.), 443
Pathogenesis of ischemia, role of multiple noncritical arterial stenoses in (Karayannacos et al.), 458
Percutaneous aspiration biopsy of nodular lung lesions (Meyer et al.), 787
Perforation, esophageal, pericarditis with effusion complicating (Hankins and McLaughlin), 225
Perfusate temperature on myocardial protection from ischemia, effect of (Tyers et al.), 766
Perfused, adequately, beating, fibrillating, and arrested heart, I. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Buckberg et al.), 87
continually, beating hearts, ischemia during moderate hypothermia in, II. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (McConnell et al.), 95
Perfusion pressure, temperature, and time in fibrillating hearts, effects of, III. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Brazier et al.), 102
problems in advanced aortic dissection, simple cannulation technique for (Kärkölä et al.), 110
Pericardial, anterior mediastinal, and peripleural air collections in neonatal respiratory distress, evacuation of (Reiffel and Priebe), 868
drainage operations in management of uremic pericardial effusion (Fox et al.), 504
xenograft, Ionescu-Shiley, heart valve replacement with (Ionescu et al.), 31
Pericarditis with effusion complicating esophageal perforation (Hankins and McLaughlin), 225
purulent, post-thoracotomy, clinicopathological study of: continuing problem of diagnosis and therapy (Bulkley et al.), 408
Peripleural, anterior mediastinal, and pericardial air collections in neonatal respiratory distress, evacuation of (Reiffel and Priebe), 868
Pharyngogastrostomy for treatment of severe caustic stricture of pharynx and esophagus (Thomas and Dedo), 817
Pharynx and esophagus, *pharyngogastrostomy for treatment of severe caustic stricture of* (Thomas and Dedo), 817
Plasma cell granuloma, tracheobronchial (Spoto et al.), 804
Plication suture, mitral: new technique of mitral valve repair (Burr et al.), 589
Pneumonia, varicella, with prolonged extracorporeal membrane oxygenation in child with leukemia, successful treatment of (Hicks et al.), 297
Polytetrafluoroethylene (Gore-Tex), expanded, behavior of infected arterial prostheses of (Weiss et al.), 630
Porcine aortic valve xenografts, long-term experience with (Stinson et al.), 54
Potassium excretion, postoperative, after cardiopulmonary bypass, *prediction of* (Patrick and Sivapragasam), 559
-induced, ischemic, cold cardioplegia, myocardial protection with (Roe et al.), 366
replacement during cardiopulmonary bypass (Babka and Pifarré), 212
Preservation, myocardial (Viljoen), 487 (letter)
during aortic valve surgery: assessment of five techniques by cellular chemical and biophysical methods (Čanković-Darracott et al.), 699

Preservation, myocardial—Cont'd
topical cardiac hypothermia for (Barner et al.), 856
24 hours,' and orthotopic transplantation, morphology of canine hearts after (Spray et al.), 880
Pressure, perfusion, temperature, and time in fibrillating hearts, effects of, III. Studies of effects of hypothermia on regional myocardial blood flow and metabolism during cardiopulmonary bypass (Brazier et al.), 102
Procedures, bronchoplastic. for lung cancer (Naruke et al.), 927
Prognosis of patients after open mitral commissurotomy: actuarial analysis of late results in 100 patients (Housman et al.), 742
Prophylactic antibiotics, controlled study evaluating: postoperative chest wound infections in patients requiring coronary bypass (Sutherland et al.), 944
Prophylaxis, antibiotic, for open-heart surgery (Myerowitz et al.), 625
cephalothin, in cardiac valve surgery: prospective, double-blind comparison of two-day and six-day regimens (Goldmann et al.), 470
Prostaglandin influence on pulmonary intravascular leukocytic aggregation during cardiopulmonary bypass (Bolanowski et al.), 221
Prosthesis(es), arterial, infected, of expanded polytetrafluoroethylene (Gore-Tex), behavior of (Weiss et al.), 630
Hancock, infected, after repair of truncus arteriosus, management of (Moseley et al.), 306
Prosthetic aortic heart valves, aortic–left ventricular pulse duplicator used in testing (Cornhill), 550
material, cardiac, external, successful treatment in presence of: infected mediastinum (Stewart), 801
or tissue valve, selection of: five-year prospective, randomized comparison (Angell et al.), 43
valve endocarditis: case for prompt valve replacement (Saffle et al.), 416
function, in vitro, by cineradiography, evaluation of: radiopaque marker in tilting disc of Björk-Shiley heart valve (Björk et al.), 563
Protection, myocardial, with cold, ischemic, potassium-induced cardioplegia (Roe et al.), 366
from ischemia, effect of perfusate temperature on (Tyers et al.), 766
during ischemic cardiac arrest: possible hazard with calcium-free cardioplegic infusates (Jynge et al.), 848
Pulmonary artery, anomalous origin of left coronary artery from: case report and review of literature concerning teenagers and adults (Wilson et al.), 887
main, in patient with tetralogy of Fallot, single coronary artery with fistula to (Brenner et al.), 738
repair, trans–, of ventricular septal defect associated with congenitally corrected transposition of great arteries (Olinger and Maloney), 353
atresia with diminutive pulmonary arteries, staged surgical management of (Gill et al.), 436
blood volume and its significance in pulmonary hemodynamics immediately after mitral commissurotomy (Sakamoto and Yamada), 578
hypertension and ventricular septal defect, retransposition of great vessels for transposition with (Mamiya et al.), 340
intravascular leukocytic aggregation during cardiopulmonary bypass, prostaglandin influence on (Bolanowski et al.), 221
monosporosis, role of surgery in management of: collective review (Jung et al.), 139
Pulmonary—Cont'd
venous drainage, anomalous, total, unusual complication of: gastrointestinal hemorrhage (King and Marchildon), 316
Pulse duplicator, aortic–left ventricular, used in testing prosthetic aortic heart valves (Cornhill), 550
Pumping, balloon, intra-aortic (Kayser), 487 (letter); Reply (Bolooki), 487
downstream, with reversed unidirectional intra-aortic balloon, increased cardiac output by (Pooley et al.), 647
Purulent pericarditis, post-thoracotomy, clinicopathological study of: continuing problem of diagnosis and therapy (Bulkley et al.), 408

R

Radiopaque marker in tilting disc of Björk-Shiley heart valve: evaluation of in vivo prosthetic valve function by cineradiography (Björk et al.), 563
Reconstruction, esophageal, for benign disease: technical considerations (Orringer et al.), 807
versus mitral valve replacement: analysis of indications and results of mitral valve procedures in consecutive series of 80 patients (Oury et al.), 825
Reflex, depressor, in acute cardiac tamponade, demonstration of (Friedman et al.), 278
Reoperations for myocardial revascularization (Irarrazaval et al.), 181
Repair(s) of atrioventricular canal, recent results after (Kahn et al.), 413
conduit, of transposition complexes: report of 14 cases (Imamura et al.), 570
of double-outlet right ventricle (Harvey et al.), 611
surgical, successful, report of two cases with: cricotracheal disruption owing to strangulation (Gill et al.), 948
of tetralogy of Fallot, late results after (Poirier et al.), 900
trans–pulmonary artery, of ventricular septal defect associated with congenitally corrected transposition of great arteries (Olinger and Maloney), 353
of truncus arteriosus, management of infected Hancock prosthesis after (Moseley et al.), 306
valve, mitral, new technique of: mitral plication suture (Burr et al.), 589
Replacement of atrioventricular valves with porcine xenograft (Hancock) valves, evaluation of hemolysis following (Rhodes and McIntosh), 312
potassium, during cardiopulmonary bypass (Babka and Pifarré), 212
valve, aortic, significance of intraoperative ventricular fibrillation during (Spanos et al.), 605
in children and adolescents (Mathews et al.), 872
heart, with Ionescu-Shiley pericardial xenograft (Ionescu et al.), 31
mitral, left ventricular rupture as complication of: surgical experience with eight cases and review of literature (Björk et al.), 14
versus reconstruction: analysis of indications and results of mitral valve procedures in consecutive series of 80 patients (Oury et al.), 825
prompt, case for: prosthetic valve endocarditis (Saffle et al.), 416
Resection of cancer of lung and carina (Ishihara et al.), 936
of left ventricular aneurysms and chronic infarcts, influence of coronary artery anatomy on survival following (Brawley et al.), 120

Respiratory distress, neonatal, evacuation of pericardial, anterior mediastinal, and peripleural air collections in (Reiffel and Priebe), 868
Response, immune, putative, of host to tumor, histology of bronchial carcinoma and regional lymph nodes as (Di Paola et al.), 531
Retransplantation, successful, of human heart (Copeland et al.), 242
Revascularization, myocardial, for patient with drastic impairment of function of left ventricle (Zubiate et al.), 84
reoperations for (Irarrazaval et al.), 181
Revascularized myocardium, effects of coronary bypass surgery on electrical activity of: immediate and early postoperative observations (Sung et al.), 269
Rhythm, cardiac, following Mustard procedure for transposition of great vessels (Lewis et al.), 919
Rupture, spontaneous, of fenestrated aortic valve: surgical treatment (Morán et al.), 716
traumatic, of ascending aorta and aortic valve following blunt chest trauma (Charles et al.), 208
ventricular, left, as complication of mitral valve replacement: surgical experience with eight cases and review of literature (Björk et al.), 14

S

Samson Thoracic Surgical Society: Announcement of 1977 Annual Meeting, 157, 325
Announcement and Program of 1977 Annual Meeting, 651
Roster of Members, 159
Scans, multiorgan, for staging lung cancer: correlation with clinical evaluation (Ramsdell et al.), 653
Sensing, pacemaker, and ventricular endocardial electrogram (Furman et al.), 258
Separation, sternum, following open-heart surgery, prevention and treatment of (Robicsek et al.), 267
Septicemia secondary to impacted infected pacemaker wire: successful treatment by removal with cardiopulmonary bypass (Chavez and Conn), 796
Serratia marcescens, retention of pacemaker electrode complicated by: removal with total cardiopulmonary bypass (Saab et al.), 404
Septotomy, balloon, early, followed by two-stage surgical correction, results of: simple d-transposition of great arteries (Kratz et al.), 707
Serratia marcescens septicemia, retention of pacemaker electrode complicated by: removal with total cardiopulmonary bypass (Saab et al.), 404
Shunt(s), intracardiac, post-traumatic (Rayner et al.), 728
TDMAC-heparin, in surgery of aneurysms of descending thoracic aorta, results of use of (Lawrence et al.), 393
Signal enhancement for detection of specialized atrioventricular conduction system electrograms during open-heart surgery (Schatz et al.), 583
Sinus of Valsalva, fistula of (Sanchez et al.), 877
Spasm, artery, coronary: medical management, surgical denervation, and autotransplantation (Clark et al.), 332
Staged surgical management of pulmonary atresia with diminutive pulmonary arteries (Gill et al.), 436
Staging lung cancer, multiorgan scans for: correlation with clinical evaluation (Ramsdell et al.), 653
Standards and monitoring: open-heart surgical centers (Brewer et al.), 327
Steal, coronary, by internal mammary graft with subclavian stenosis (Brown), 690
Stenosis(es), arterial, noncritical, multiple, in pathogenesis of ischemia, role of (Karayannacos et al.), 458
artery, coronary, in short-term and long-term studies in dogs, hemodynamic effects of controlled degrees of (Folts et al.), 722
of circumflex coronary artery, effects of isoproterenol and dopamine on regional myocardial blood flow after (McClenathan et al.), 431
coronary, critical, hazards of ventricular fibrillation in presence of: myocardial ischemia during cardiopulmonary bypass (Ciardullo et al.), 746
subclavian, coronary steal by internal mammary graft with (Brown), 690
subpulmonary, d-transposition of great arteries, and complete form of atrioventricular canal, coexisting, orthoterminal correction of (Gonzalez-Lavin et al.), 694
Sternal closure, new adjunct for: wire holder (Rubio), 449
Sternum separation following open-heart surgery, prevention and treatment of (Robicsek et al.), 267
Strangulation, cricotracheal disruption owing to: report of two cases with successful surgical repair (Gill et al.), 948
Stricture of pharynx and esophagus, caustic, severe, pharyngogastrostomy for treatment of (Thomas and Dedo), 817
Subclavian stenosis, coronary steal by internal mammary graft with (Brown), 690
Subpulmonary stenosis, d-transposition of great arteries, and complete form of atrioventricular canal, coexisting, orthoterminal correction of (Gonzalez-Lavin et al.), 694
Support, nutritional, in cardiac cachexia (Blackburn et al.), 489
oxygenator, membrane, extracorporeal, for cardiopulmonary failure: experience in 28 cases (Bartlett et al.), 375
Supraventricular tachyarrhythmias, surgical treatment of (Sealy et al.), 511
Surgery, bypass, artery, coronary, current practice of: results of national survey (Miller et al.), 75
in management of pulmonary monosporosis, role of: collective review (Jung et al.), 139
open-heart, antibiotic prophylaxis for (Myerowitz et al.), 625
carbohydrate and lipid metabolism in (Yokota et al.), 543
effects of (Nuutinen et al.), 680
monitoring of cardiac output by thermodilution after (Kohanna and Cunningham), 451
prevention and treatment of sternum separation following (Robicsek et al.), 267
signal enhancement for detection of specialized atrioventricular conduction system electrograms during (Schatz et al.), 583
Surgical centers, open-heart: standards and monitoring (Brewer et al.), 327
treatment of supraventricular tachyarrhythmias (Sealy et al.), 511
Survival following resection of left ventricular aneurysms and chronic infarcts, influence of coronary artery anatomy on (Brawley et al.), 120
for 145 days with total artificial heart (Kasai et al.), 637
Suture, plication, mitral: new technique of mitral valve repair (Burr et al.), 589
Systemic venous connection, anomalous, total, common atrium, and partial atrioventricular canal: case report of successful surgical correction (Krayenbuhl and Lincoln), 686

T

Tachyarrhythmias, supraventricular, surgical treatment of (Sealy et al.), 511
Tamponade, cardiac, acute, demonstration of depressor reflex in (Friedman et al.), 278
TDMAC-heparin shunt in surgery of aneurysms of descending thoracic aorta, results of use of (Lawrence et al.), 393
Teen-agers and adults, case report and review of literature concerning: anomalous origin of left coronary artery from pulmonary artery (Wilson et al.), 887
Temperature, perfusate, on myocardial protection from ischemia, effect of (Tyers et al.), 766
Tetralogy of Fallot, late results after repair of (Poirier et al.), 900
single coronary artery with fistula to main pulmonary artery in patient with (Brenner et al.), 738
Thermodilution after open-heart surgery, monitoring of cardiac output by (Kohanna and Cunningham), 451
Thoracotomy, post-, purulent pericarditis, clinicopathological study of: continuing problem of diagnosis and therapy (Bulkley et al.), 408
Thrombosis of aorta-coronary bypass grafts, coagulation factors influencing (Zajtchuk et al.), 309
Tilting disc aortic valve, Björk-Shiley, intraoperative hemodynamic evaluation of (Larmi et al.), 712
Tissue or prosthetic valve, selection of: five-year prospective, randomized comparison (Angell et al.), 43
Topical cardiac hypothermia, effectiveness of (Stiles et al.), 176
for myocardial preservation (Barner et al.), 856
Total artificial heart, survival for 145 days with (Kasai et al.), 637
Tracheal, crico-, disruption owing to strangulation: report of two cases with successful surgical repair (Gill et al.), 948
Tracheobronchial plasma cell granuloma (Spoto et al.), 804
Transplantation, allo-, lung, canine, restoration of bronchial artery circulation after (Siegelman et al.), 792
orthotopic, and 24 hours' preservation, morphology of canine hearts after (Spray et al.), 880
re-, successful of human heart (Copeland et al.), 242
Transposition complexes, conduit repairs of: report of 14 cases (Imamura et al.), 570
of great arteries, anatomic correction of (Kreutzer et al.), 538
congenitally corrected, trans–pulmonary artery repair of ventricular septal defect associated with (Olinger and Maloney), 353
vessels (Bharati and Lev), 321 (letter)
cardiac rhythm following Mustard procedure for (Lewis et al.), 919
with ventricular septal defect and pulmonary hypertension, retransposition of great vessels for (Mamiya et al.), 340
d-Transposition of great arteries, simple: results of early balloon septotomy followed by two-stage surgical correction (Kratz et al.), 707
subpulmonary stenosis, and complete form of atrioventricular canal, coexisting, orthoterminal correction of (Gonzalez-Lavin et al.), 694
Trauma, chest, blunt, traumatic rupture of ascending aorta and aortic valve following (Charles et al.), 208
Traumatic, post-, intracardiac shunts: report of two cases and review of literature (Rayner et al.), 728
Truncus arteriosus, management of infected Hancock prosthesis after repair of (Moseley et al.), 306
types II and III, surgical correction of (Griepp et al.), 345
Tube palliation, Celestin, of unresectable esophageal carcinoma (Kairaluoma et al.), 783
Tumor, histology of bronchial carcinoma and regional lymph nodes as putative immune response of host to (Di Paola et al.), 531

U

Unstable angina selected by exclusion of myocardial infarction, perioperative mortality rate in patients with (Klein et al.), 253
Uremic pericardial effusion, pericardial drainage operations in management of (Fox et al.), 504

V

Valsalva, fistula of sinus of (Sanchez et al.), 877
Valve(s), aortic, and ascending aorta following blunt chest trauma, traumatic rupture of (Charles et al.), 208
fenestrated, spontaneous rupture of: surgical treatment (Morán et al.), 716
Magovern-Cromie, thirteen-year review of (Magovern et al.), 64
tilting disc, Björk-Shiley, intraoperative hemodynamic evaluation of (Larmi et al.), 712
atrioventricular, with porcine xenograft (Hancock) valves, evaluation of hemolysis following replacement of (Rhodes and McIntosh), 312
endocarditis, prosthetic: case for prompt valve replacement (Saffle et al.), 416
function, mitral, during surgery following conservative procedures, direct evaluation of (Nair and Yates), 684
heart, aortic, prosthetic, aortic–left ventricular pulse duplicator used in testing (Cornhill), 550
Björk-Shiley, radiopaque marker in tilting disc of: evaluation of in vivo prosthetic valve function by cineradiography (Björk et al.), 563
repair, mitral, new technique of: mitral plication suture (Burr et al.), 589
replacement, aortic, significance of intraoperative ventricular fibrillation during (Spanos et al.), 605
in children and adolescents (Mathews et al.), 872
heart, with Ionescu-Shiley pericardial xenograft (Ionescu et al.), 31
mitral, left ventricular rupture as complication of: surgical experience with eight cases and review of literature (Björk et al.), 14
versus reconstruction: analysis of indications and results of mitral valve procedures in consecutive series of 80 patients (Oury et al.), 825
surgery, aortic, myocardial preservation during: assessment of five techniques by cellular chemical and biophysical methods (Čanković-Darracott et al.), 699
cardiac, cephalothin prophylaxis in: prospective, double-blind comparison of two-day and six-day regimens (Goldmann et al.), 470
tissue or prosthetic, selection of: five-year prospective, randomized comparison (Angell et al.), 43
xenografts, aortic, porcine, long-term experience with (Stinson et al.), 54
Varicella pneumonia with prolonged extracorporeal membrane oxygenation in child with leukemia, successful treatment of (Hicks et al.), 297

Vascular, peripheral, and coronary artery disease, coexistent, severe, management of patients with (Reis and Hannah), 909
Vasodilator treatment, control of myocardial performance early after open-heart operations by (Stinson et al.), 523
Venoarterial bypass, femoral, heparinless, without oxygenator for surgery on descending thoracic aorta (May et al.), 387
Venous drainage, pulmonary, anomalous, total, unusual complication of: gastrointestinal hemorrhage (King and Marchildon), 316
Vent effectiveness, comparison of: aortic venting (Marco and Barner), 287
Ventricle, left, myocardial revascularization for patient with drastic impairment of function of (Zubiate et al.), 84
right, double-outlet, with noncommitted ventricular septal defect, surgical correction of (Kirklin and Castaneda), 399
repair of (Harvey et al.), 611
Ventricular aneurysmectomy and aorta-coronary bypass, long-term clinical and hemodynamic studies after (Aranda et al.), 772
aneurysms, left, and chronic infarcts, influence of coronary artery anatomy on survival following resection of (Brawley et al.), 120
endocardial electrogram and pacemaker sensing (Furman et al.), 258
fibrillation on coronary blood flow and myocardial metabolism, effects of (Grover et al.), 616
intraoperative, during aortic valve replacement, significance of (Spanos et al.), 605
in presence of critical coronary stenosis, hazards of: myocardial ischemia during cardiopulmonary bypass (Ciardullo et al.), 746
pulse duplicator, aortic–left, used in testing prosthetic aortic heart valves (Cornhill), 550
rupture, left, as complication of mitral valve replacement: surgical experience with eight cases and review of literature (Björk et al.), 14
septal defect and aortic insufficiency: surgical treatment (Moreno-Cabral et al.), 358
Ventricular septal defect—Cont'd
associated with congenitally corrected transposition of great arteries, trans–pulmonary artery repair of (Olinger and Maloney), 353
noncommitted, surgical correction of double-outlet right ventricle with (Kirklin and Castaneda), 399
and pulmonary hypertension, retransposition of great vessels for transposition with (Mamiya et al.), 340
supra-, tachyarrhythmias, surgical treatment of (Sealy et al.), 511
Vessels, great, retransposition of, for transposition with ventricular septal defect and pulmonary hypertension (Mamiya et al.), 340
transposition of (Bharati and Lev), 321 (letter)
cardiac rhythm following Mustard procedure for (Lewis et al.), 919

W

Water, extravascular, myocardial, effects of cardiopulmonary bypass with crystalloid and colloid hemodilution on (Laks et al.), 129
Wire holder: new adjunct for sternal closure (Rubio), 449
pacemaker, infected, impacted, septicemia secondary to: successful treatment by removal with cardiopulmonary bypass (Chavez and Conn), 796
Wound infections, chest, postoperative, in patients requiring coronary bypass: controlled study evaluating prophylactic antibiotics (Sutherland et al.), 944

X

Xenograft(s) (Hancock) valves, porcine, evaluation of hemolysis following replacement of atrioventricular valves with (Rhodes and McIntosh), 312
pericardial, Ionescu-Shiley, heart valve replacement with (Ionescu et al.), 31
valve, aortic, porcine, long-term experience with (Stinson et al.), 54

The Journal of **THORACIC AND CARDIOVASCULAR SURGERY**

Official organ, The American Association for Thoracic Surgery and The Samson Thoracic Surgical Society

Subject index*

A

Abdominal wall and sternal defects in case of desmoid tumor, reconstruction of (Baffi et al.), 105
Active endocarditis, long-term outlook for valve replacement in (Wilcox et al.), 860
Adenoid cystic carcinoma (Reddy), 329 (letter); Reply (Goldstraw), 329
Air embolism, systemic, in experimental penetrating lung injuries (Ponn et al.), 766
Airway pressure, positive, continuous, versus positive end-expiratory pressure in respiratory distress syndrome (Shah et al.), 557
Allograft valves, aortic, antibiotic-treated, stent-mounted, isolated mitral replacement with (Heng et al.), 230
American Association for Thoracic Surgery: Announcement of 1978 Annual Meeting, 164, 331, 491, 653, 817, 951
Annual meeting notes, 162
Graham Traveling Fellowship, 166, 330
Roster of members, 471
Board of Thoracic Surgery: Notice of examination, 166, 334, 494, 656, 820, 954
Amylase levels, serum and urinary, following pulsatile and continuous cardiopulmonary bypass (Moores et al.), 73
Anastomosis, superior vena cava–pulmonary artery, on pulmonary blood flow, long-term effect of (Laks et al.), 253
Aneurysm of aortic arch without cardiopulmonary bypass, resection of (Chu et al.), 928
method for resection and prosthetic replacement of (Malavé et al.), 798
artery, coronary, with rupture into right atrium, surgical treatment of (Gray and McMartin), 455
Angina, post–myocardial infarction, by intra-aortic balloon pumping and emergency revascularization, treatment of (Bardet et al.), 299
unstable, myocardial revascularization in patients with (Phillips et al.), 159 (letter)
Angiotensin-renin system following open-heart surgery, hypertension and (Taylor et al.), 840
Annuloplasty ring, Carpentier, treatment of tricuspid insufficiency after Mustard procedure with (Dunn et al.), 784
Annulus, pulmonary, in situ placement of valved conduit at (Laks et al.), 640
Anomalous origin of left coronary artery (Trivellato), 160 (letter); Reply (Matsumoto), 160
pulmonary venous return, partial, left, subtotal cor triatriatum with: successful surgical repair in infant (Jennings and Innes), 461
systemic and pulmonary venous drainage, surgical correction of case of common atrium with (Ghosh et al.), 604
Antibiotics, prophylactic, in treatment of penetrating chest wounds: prospective double-blind study (Grover et al.), 528
Aorta, coarctation of, management of pseudoaneurysm following patch grafting for (Kirsh et al.), 636
-coronary bypass surgery, disappearance of electrocardiographic pattern of inferior wall myocardial infarction after (Kennedy et al.), 586
Aortic allograft valves, antibiotic-treated, stent-mounted, isolated mitral replacement with (Heng et al.), 230
arch, aneurysm of, without cardiopulmonary bypass, resection of (Chu et al.), 928
method for resection and prosthetic replacement of (Malavé et al.), 798
interrupted, associated with aortic septal defect and patent ductus arteriosus, total one-stage repair of (Ito et al.), 913
Type B, with ventricular septal defect in infancy, correction of (Monro et al.), 618
clamping, safe, prolonged, by combining membrane stabilization, multidose cardioplegia, and appropriate pH reperfusion (Follette et al.), 682
dissection after aortic valve replacement in patients with valvular aortic steonsis (Muna et al.), 65
stenosis, subvalvular, discrete: evaluation of operative therapy (Hardesty et al.), 352
supravalvular: repair by extended aortoplasty (Doty et al.), 362
valve leaflets during cardiac cycle, in vivo study of dimensional changes of (Brewer et al.), 645
prosthesis, Björk-Shiley, ultrasonic evaluation of thrombosis of (Orzan et al.), 11
replacement with glutaraldehyde-treated porcine heterograft prosthesis, acute hemodynamic alterations after (Mookerjee et al.), 788
isolated, long-term follow-up after (Copeland et al.), 875
severe intravascular hemolysis after: reversal by left ventricular apico–abdominal aortic composite conduit (Cooley and Norman), 322
Aorticopulmonary window, tetralogy of Fallot with: report of two surgical cases (Castaneda and Kirklin), 467
Aortoplasty, extended, repair by: supravalvular aortic stenosis (Doty et al.), 362
Arch, aortic, aneurysm of, without cardiopulmonary bypass, resection of (Chu et al.), 928
method for resection and prosthetic replacement of (Malavé et al.), 798
interrupted, associated with aortic septal defect and patent ductus arteriosus, total one-stage repair of (Ito et al.), 913
Type B, with ventricular septal defect in infancy, correction of (Monro et al.), 618
Arrest, potassium-induced, hypothermic, isotonic, preliminary clinical experience with (Tyers et al.), 674
Arterial closure, trans–pulmonary, of ventricular septal defect (Kawashima et al.), 191

*July, pp. 1-166; August, pp. 167-334; September, pp. 335-494; October, pp. 495-656; November, pp. 657-820; December, pp. 821-978.

Arterialization, selective, of coronary venous system, hemodynamic evaluation of: experimental study of myocardial perfusion utilizing radioactive microspheres (Hochberg), 774
Arteriography, mesenteric, preoperative, in colon interposition, role of (Ventemiglia et al.), 98
Arteriosus, ductus, bilateral, in complex cyanotic heart disease, management of (Lenox et al.), 607
patent, and aortic septal defect, total one-stage repair of interrupted aortic arch associated with (Ito et al.), 913
or significant VSD, anatomic correction of transposition of great arteries without (Mauck et al.), 631
Arteriovenous fistulas, femoral, canine, fistula size and hemodynamic events within and about (Lavigne et al.), 551
Artery(ies) anastomosis, superior vena cava–pulmonary, on pulmonary blood flow, long-term effect of (Laks et al.), 253
aneurysm, coronary, with rupture into right atrium, surgical treatment of (Gray and McMartin), 455
bypass, coronary: physiological basis for differences in flow with internal mammary artery and saphenous vein grafts (Dobrin et al.), 445
surgery, coronary (von Hippel), 815 (letter); Reply (Miller), 815
effects of infusion of cardiotomy suction blood during extracorporeal circulation for (Okies et al.), 440
systemic hypertension associated with: predisposing factors, hemodynamic characteristics, humoral profile, and treatment (Roberts et al.), 846
coronary, left, anomalous origin of (Trivellato), 160 (letter); Reply (Matsumoto), 160
great, transposition of, modified Shumacker operation for correction of (Alvarado), 614
without significant ventricular septal defect or patent ductus arteriosus, anatomic correction of (Mauck et al.), 631
d-transposition of, resection of left ventricular outflow obstruction in (Idriss et al.), 343
–left ventricular fistula, left coronary, surgical closure of: second case reported in literature and review of five previously reported cases of coronary artery fistula terminating in left ventricle (Midell et al.), 199
mammary, internal, and saphenous vein grafts, physiological basis for differences in flow with: coronary artery bypass (Dobrin et al.), 445
pulmonary, main, right, normal, congenital lobar emphysema resulting from bronchial sling around (Canty et al.), 126
VSD related to, double-outlet right ventricle (S,D,D), and pulmonary stenosis absent: correction with intraventricular conduit in infancy (Stewart), 70
Artificial lung, implantable: preliminary report (Morin et al.), 130
Aspergillomas, pulmonary, surgical treatment of (Garvey et al.), 542
Assist device utilization, left ventricular, methods of scoring and classification, with implications for: prognostic indices for survival during postcardiotomy intra-aortic balloon pumping (Norman et al.), 709
Assured survival (Dugan), 821 (Presidential Address)
Atresia, esophageal, selective surgical management based upon clinical status in infants with (Randolph et al.), 335
tricuspid (Anderson et al.), 325 (letter); Reply (Bharati and Lev), 328
Atrial involvement, left, and systemic embolization, case report with: chondrosarcoma (Boland et al.), 268
trans-, repair of ventricular septal defects with reference to their anatomic classification (Lincoln et al.), 183
Atrioventricular canal associated with tetralogy of Fallot, successful correction of complete form of: case report (Zavanella et al.), 195
groove, pseudoaneurysm of: late complication of mitral valve replacement (Diethrich et al.), 47
valves, two, correction of univentricular heart having (McGoon et al.), 218
Atrium, common, with anomalous systemic and pulmonary venous drainage, surgical correction of case of (Ghosh et al.), 604
primary plasmacytoma of: report of case with successful surgical management (Torstveit et al.), 563
right, melanotic malignant schwannoma of (Gelfand et al.), 808
surgical treatment of coronary artery aneurysm with rupture into (Gray and McMartin), 455
Autologous blood transfusion during cardiac surgery: re-evaluation of three methods (Kaplan et al.), 4
fascia lata as pericardial substitute following open-heart surgery, use of (Kohanna et al.), 14
Avulsion of tricuspid valve leaflet during traction on infected, entrapped endocardial pacemaker electrode: role of electrode design (Lee et al.), 433

B

Balloon pumping, intra-aortic, and emergency revascularization, treatment of post–myocardial infarction angina by (Bardet et al.), 299
postcardiotomy, prognostic indices for survival during: methods of scoring and classification, with implications for left ventricular assist device utilization (Norman et al.), 709
Belsey-Collis operation, combined, complications and failings of (Orringer and Sloan), 726
hiatal hernia repair and Collis gastroplasty for gastroesophageal reflux, intraoperative and postoperative esophageal manometric findings with (Cooper et al.), 744
Benign giant cell tumor of femur with bilateral multiple pulmonary metastases (Inoue et al.), 935
Björk-Shiley aortic valve prosthesis, ultrasonic evaluation of thrombosis of (Orzan et al.), 11
disc, fracture and embolization of: fatal failure of prosthetic mitral valve (Norenberg et al.), 925
Bleeding tendency and thrombocyte count in open-heart surgery, effect of dipyridamole on (Nuutinen et al.), 295
Block, branch, bundle, right, complete, surgically induced, on long-term follow-up results of closure of ventricular septal defect, deleterious effects of (Yasui et al.), 210
nerve, intercostal, following thoracotomy, medical benefits of: kindness pays dividends (Fleming and Sarafian), 273
Blood flow, coronary, in dog, effects of thoracotomy on (Yeager and Haddy), 907
suction, cardiotomy, during extracorporeal circulation for coronary artery bypass surgery, effects of infusion of (Okies et al.), 440
transfusion, autologous, during cardiac surgery: re-evaluation of three methods (Kaplan et al.), 4
Blunt trauma, extensive pulmonary laceration caused by (Hankins et al.), 519
Bodies, foreign, in children, inhalation of: report of 500 cases (Aytaç et al.), 145
Bronchial preneoplasia in dog, effects of localized chemical carcinogenesis and immunosuppression upon (Benfield et al.), 752

Bronchial—Cont'd
sling around normal right main pulmonary artery, congenital lobar emphysema resulting from (Canty et al.), 126
Bronchogenic carcinoma, immunoprofile studies for patients with. I. Correlation of pretherapy studies with survival (Liebler et al.), 506
Bundle branch block, right, complete, surgically induced, on long-term follow-up results of closure of ventricular septal defect, deleterious effects of (Yasui et al.), 210
electrograms, His, in 51 patients requiring permanent transvenous pacemakers (Gould et al.), 28
Burford, Thomas Hannahan (1907-1977), 947 (obit.)
Bypass, artery, coronary: physiological basis for differences in flow with internal mammary artery and saphenous vein grafts (Dobrin et al.), 445
cardiopulmonary, in dog, effects of lidocaine and epinephrine on myocardial preservation following (Schaub et al.), 571
effects of methoxamine on coronary circulation during (Symmonds et al.), 577
in nonhypertrophied hearts, safety of induced ventricular fibrillation during (Cox et al.), 423
pulsatile and continuous, serum and urinary amylase levels following (Moores et al.), 73
resection of aneurysm of aortic arch without (Chu et al.), 928
experimental, of left ventricle (Knott and Doty), 436
left ventricular, with homologous cardiac graft, hemodynamic evaluation of (Losman et al.), 695
surgery, aorta-coronary, disappearance of electrocardiographic pattern of inferior wall myocardial infarction after (Kennedy et al.), 586
artery, coronary (von Hippel), 815 (letter); Reply (Miller), 815
effects of infusion of cardiotomy suction blood during extracorporeal circulation for (Okies et al.), 440
systemic hypertension associated with: predisposing factors, hemodynamic characteristics, humoral profile, and treatment (Roberts et al.), 846
coronary, pericardial constriction as late complication of (Brown and Older), 61
saphenous vein, with multistage treadmill test and ventricular function studies, evaluation of (Bode and Zajtchuk), 44

C

Canal, atrioventricular, associated with tetralogy of Fallot, successful correction of complete form of: case report (Zavanella et al.), 195
Cancer, lung, results of surgical treatment in (Martini and Beattie), 499
Carbon dioxide in development of pulmonary insufficiency, role of (Askanazi et al.), 118
Carcinogenesis, chemical, localized, and immunosuppression upon bronchial preneoplasia in dog, effects of (Benfield et al.), 752
Carcinoma, bronchogenic, immunoprofile studies for patients with. I. Correlation of pretherapy studies with survival (Liebler et al.), 506
cystic, adenoid (Reddy), 329 (letter); Reply (Goldstraw), 329
of lung, radiation-induced—St. Lawrence tragedy (Wright and Couves), 495
Cardiac chondromyxosarcoma, primary—clinical and echocardiographic manifestations: case report (Winer et al.), 567
cycle, in vivo study of dimensional changes of aortic valve leaflets during (Brewer et al.), 645
Cardiac—Cont'd
graft, homologous, hemodynamic evaluation of left ventricular bypass with (Losman et al.), 695
hypothermia (Phillips et al.), 159 (letter)
surgery, autologous blood transfusion during: re-evaluation of three methods (Kaplan et al.), 4
transplantation, heterotopic, over orthotopic cardiac transplantation in management of severe acute rejection, advantage of (Barnard et al.), 918
Cardiomyopathy, ischemic: medical versus surgical treatment (Faulkner et al.), 77
Cardioplegia, cold, or continuous coronary perfusion: report on preliminary clinical experience as assessed cytochemically (Braimbridge et al.), 900
multidose, membrane stabilization, and appropriate pH reperfusion, prolonged safe aortic clamping by combining (Follette et al.), 682
Cardiopulmonary bypass. *See* Bypass, cardiopulmonary.
Cardiorespiratory failure in patients with pneumonectomy for tuberculosis: long-term effects of thoracoplasty (Huang and Lyons), 409
Cardiotomy, post-, intra-aortic balloon pumping, prognostic indices for survival during: methods of scoring and classification, with implications for left ventricular assist device utilization (Normal et al.), 709
Carpentier annuloplasty ring, treatment of tricuspid insufficiency after Mustard procedure with (Dunn et al.), 784
Catheter, pacing, endocardial, permanent, pericardial tamponade due to perforation with (Bassan and Merin), 51
Chest wounds, penetrating, prophylactic antibiotics in treatment of: prospective double-blind study (Grover et al.), 528
Children with chronic pulmonary disease, management of pneumothorax in (Luck et al.), 834
inhalation of foreign bodies in: report of 500 cases (Aytaç et al.), 145
Chondromyxosarcoma, cardiac, primary—clinical and echocardiographic manifestations: case report (Winer et al.), 567
Chondrosarcoma: case report with left atrial involvement and systemic embolization (Boland et al.), 268
Circulation, coronary, during cardiopulmonary bypass, effects of methoxamine on (Symmonds et al.), 577
extracorporeal (ECMO) in neonatal respiratory failure (Bartlett et al.), 826
for coronary artery bypass surgery, effects of infusion of cardiotomy suction blood during (Okies et al.), 440
progress in (Heimbecker), 157 (edit.)
functionally normal, experience with operation to establish: hypoplastic left heart syndrome (Doty and Knott), 624
Clamping, aortic, safe, prolonged, by combining membrane stabilization, multidose cardioplegia, and appropriate pH reperfusion (Follette et al.), 682
Closure, delayed, surgical reconstruction with special reference to: traumatic rupture of diaphragm (Feigenberg et al.), 249
sternotomy, median, with running wire: simplified method (Rubio et al.), 651
trans–pulmonary arterial, of ventricular septal defect (Kawashima et al.), 191
of ventricular septal defect, deleterious effects of surgically induced complete right bundle branch block on long-term follow-up results of (Yasui et al.), 210
Coarctation of aorta, management of pseudoaneurysm following patch grafting for (Kirsh et al.), 636

Coccidioides immitis infection, unusual manifestation of (Fee et al.), 548
Collis-Belsey operation, combined, complications and failings of (Orringer and Sloan), 726
gastroplasty and Belsey hiatal hernia repair for gastroesophageal reflux, intraoperative and postoperative esophageal manometric findings with (Cooper et al.), 744
Colon interposition, role of preoperative mesenteric arteriography in (Ventemiglia et al.), 98
Common atrium with anomalous systemic and pulmonary venous drainage, surgical correction of (Ghosh et al.), 604
Computer-aided monitoring of patients after heart surgery, evaluation of (Edmunds et al.), 890
Conduit, composite, left ventricular apico–abdominal aortic, reversal by: severe intravascular hemolysis after aortic valve replacement (Cooley and Norman), 322
intraventricular, in infancy, correction with: double-outlet right ventricle (S,D,D), VSD related to pulmonary artery, and pulmonary stenosis absent (Stewart), 70
valved, at pulmonary annulus, in situ placement of (Laks et al.), 640
Congenital heart disease in Down's syndrome, surgical management of (Katlic et al.), 204
lobar emphysema resulting from bronchial sling around normal right main pulmonary artery (Canty et al.), 126
Constriction, pericardial, as late complication of coronary bypass surgery (Brown and Older), 61
Constrictive pericarditis, occult: changing spectrum of pericardiectomy for chronic pericarditis (Kilman et al.), 668
Continuous positive airway pressure versus positive end-expiratory pressure in respiratory distress syndrome (Shah et al.), 557
Cor triatriatum, subtotal, with left partial anomalous pulmonary venous return: successful surgical repair in infant (Jennings and Innes), 461
Coronary artery. *See* Artery, coronary.
blood flow in dog, effects of thoracotomy on (Yeager and Haddy), 907
bypass. *See* Bypass, coronary.
circulation during cardiopulmonary bypass, effects of methoxamine on (Symmonds et al.), 577
perfusion, continuous, or cold cardioplegia: report on preliminary clinical experience as assessed cytochemically (Braimbridge et al.), 900
venous system, hemodynamic evaluation of selective arterialization of: experimental study of myocardial perfusion utilizing radioactive microspheres (Hochberg), 774
Correspondence
Adenoid cystic carcinoma (Reddy), 329
Reply (Goldstraw), 329
Anomalous origin of left coronary artery (Trivellato), 160
Reply (Matsumoto), 160
Cardiac hypothermia (Phillips et al.), 159
Coronary artery bypass surgery (von Hippel), 815
Reply (Miller), 815
Dr. Frank Robicsek—Renaissance man (Keshishian), 159
Leiomyosarcoma of superior vena cava (Stefanini), 816
Reply (Bergmann), 816
Myocardial preservation (Tyers), 813
Reply (Effler), 813
Reply (Viljoen), 813
Myocardial revascularization in patients with unstable angina (Phillips et al.), 159
Correspondence—Cont'd
Profound topical hypothermia (Spotnitz), 814
Reply (Buckberg), 814
Tricuspid atresia (Anderson et al.), 325
Reply (Bharati and Lev), 328
Cricopharyngeal myotomy as method of treating cricopharyngeal dysphagia secondary to gastroesophageal reflux (Henderson and Marryatt), 721
Current waveforms for effective ventilation, evaluation of: diaphragm pacing (Kaneyuki et al.), 109
Cyanotic heart disease, complex, management of bilateral ductus arteriosus in (Lenox et al.), 607
Cycle, cardiac, in vivo study of dimensional changes of aortic valve leaflets during (Brewer et al.), 645
Cyst, echinococcal, of heart, surgical treatment of: report of two cases and review of world literature (Shakibi et al.), 941
lymphatic, intramural, of bovine heterograft (Fox et al.), 939
Cystic carcinoma, adenoid (Reddy), 329 (letter); Reply (Goldstraw), 329

D

De Bakey valve, strut fracture in: successful reoperation and valve replacement (Zumbro et al.), 469
Decortication, pleural, early, for thoracic empyema in immunosuppressed patients (Fishman and Ellertson), 537
Defect(s), septal, aortic, and patent ductus arteriosus, total one-stage repair of interrupted aortic arch associated with (Ito et al.), 913
ventricular, deleterious effects of surgically induced complete right bundle branch block on long-term follow-up results of closure of (Yasui et al.), 210
in infancy, correction of Type B interrupted aortic arch with (Monro et al.), 618
with reference to their anatomic classification, transatrial repair of (Lincoln et al.), 183
significant, or patent ductus arteriosus, anatomic correction of transposition of great arteries without (Mauck et al.), 631
trans–pulmonary arterial closure of (Kawashima et al.), 191
sternal and abdominal wall, in case of desmoid tumor, reconstruction of (Baffi et al.), 105
Desmoid tumor, reconstruction of sternal and abdominal wall defects in case of (Baffi et al.), 105
Device utilization, assist, left ventricular, methods of scoring and classification, with implications for: prognostic indices for survival during postcardiotomy intra-aortic balloon pumping (Norman et al.), 709
Diaphragm pacing: evaluation of current waveforms for effective ventilation (Kaneyuki et al.), 109
traumatic rupture of: surgical reconstruction with special reference to delayed closure (Feigenberg et al.), 249
Diffuse spasm of esophagus: clinical, manometric, and surgical considerations (Leonardi et al.), 736
Dipyridamole on thrombocyte count and bleeding tendency in open-heart surgery, effect of (Nuutinen et al.), 295
Dirofilariasis, pulmonary, in man (Robinson et al.), 403
Discrete subvalvular aortic stenosis: evaluation of operative therapy (Hardesty et al.), 352
Disease, heart, congenital, in Down's syndrome, surgical management of (Katlic et al.), 204
cyanotic, complex, management of bilateral ductus arteriosus in (Lenox et al.), 607

Disease—Cont'd
pulmonary, chronic, management of pneumothorax in children with (Luck et al.), 834
Dissection, aortic, after aortic valve replacement in patients with valvular aortic stenosis (Muna et al.), 65
Distress syndrome, respiratory, continuous positive airway pressure versus positive end-expiratory pressure in (Shah et al.), 557
Double-outlet right ventricle (S,D,D), VSD related to pulmonary artery, and pulmonary stenosis absent: correction with intraventricular conduit in infancy (Stewart), 70
Down's syndrome, surgical management of congenital heart disease in (Katlic et al.), 204
Drainage, venous, systemic and pulmonary, anomalous, surgical correction of case of common atrium with (Ghosh et al.), 604
Ductus arteriosus, bilateral, in complex cyanotic heart disease, management of (Lenox et al.), 607
patent, and aortic septal defect, total one-stage repair of interrupted aortic arch associated with (Ito et al.), 913
or significant ventricular septal defect, anatomic correction of transposition of great arteries without (Mauck et al.), 631
Dura mater, replacement of trachea with: experimental work (Sabás et al.), 761
Dysphagia, cricopharyngeal, secondary to gastroesophageal reflux, cricopharyngeal myotomy as method of treating (Henderson and Marryatt), 721

E

Echinococcal cyst of heart, surgical treatment of: report of two cases and review of world literature (Shakibi et al.), 941
ECMO (extracorporeal circulation) in neonatal respiratory failure (Bartlett et al.), 826
Editorial: Progress in extracorporeal circulation (Heimbecker), 157
Electrocardiographic pattern of inferior wall myocardial infarction after aorta-coronary bypass surgery, disappearance of (Kennedy et al.), 586
Electrode, pacemaker, endocardial, entrapped, infected, avulsion of tricuspid valve leaflet during traction on: role of electrode design (Lee et al.), 433
Electrograms, His bundle, in 51 patients requiring permanent transvenous pacemakers (Gould et al.), 28
Embolism, air, systemic, in experimental penetrating lung injuries (Ponn et al.), 766
Embolization and fracture of Björk-Shiley disc: fatal failure of prosthetic mitral valve (Norenberg et al.), 925
systemic, and left atrial involvement, case report with: chondrosarcoma (Boland et al.), 268
Emphysema, lobar, congenital, resulting from bronchial sling around normal right main pulmonary artery (Canty et al.), 126
Empyema, thoracic, in immunosuppressed patients, early pleural decortication for (Fishman and Ellertson), 537
End-expiratory pressure, positive, versus continuous positive airway pressure in respiratory distress syndrome (Shah et al.), 557
Endocardial pacing catheter, permanent, pericardial tamponade due to perforation with (Bassan and Merin), 51
Endocarditis, active, long-term outlook for valve replacement in (Wilcox et al.), 860
Endomyocardial fibrosis in European woman and its successful surgical treatment (Laing et al.), 803
Epinephrine and lidocaine on myocardial preservation following cardiopulmonary bypass in dog, effects of (Schaub et al.), 571
Esophageal atresia, selective surgical management based upon clinical status in infants with (Randolph et al.), 335
manometric findings, intraoperative and postoperative, with Collis gastroplasty and Belsey hiatal hernia repair for gastroesophageal reflux (Cooper et al.), 744
perforation, pediatric (Shepherd et al.), 261
Esophagus, accidental pneumatic rupture of (Gelfand et al.), 142
diffuse spasm of: clinical, manometric, and surgical considerations (Leonardi et al.), 736
Extracorporeal circulation for coronary artery bypass surgery, effects of infusion of cardiotomy suction blood during (Okies et al.), 440
(ECMO) in neonatal respiratory failure (Bartlett et al.), 826
progress in (Heimbecker), 157 (edit.)

F

Failure, cardiorespiratory, in patients with pneumonectomy for tuberculosis: long-term effects of thoracoplasty (Huang and Lyons), 409
fatal, of prosthetic mitral valve: fracture and embolization of Björk-Shiley disc (Norenberg et al.), 925
respiratory, neonatal, extracorporeal circulation (ECMO) in (Bartlett et al.), 826
Fallot, tetralogy of, with aorticopulmonary window: report of two surgical cases (Castaneda and Kirklin), 467
in infancy, repair of: early and late results (Castaneda et al.), 372
successful correction of complete form of atrioventricular canal associated with: case report (Zavanella et al.), 195
surgical management of pulmonary stenosis in (Pacifico et al.), 382
Fascia lata, autologous, as pericardial substitute following open-heart surgery, use of (Kohanna et al.), 14
Femur with bilateral multiple pulmonary metastases, benign giant cell tumor of (Inoue et al.), 935
Fibrillation, ventricular, induced, during cardiopulmonary bypass in nonhypertrophied hearts, safety of (Cox et al.), 423
Fibrosis, endomyocardial, in European woman and successful surgical treatment (Laing et al.), 803
Fistula, left coronary artery–left ventricular, surgical closure of: second case reported in literature and review of five previously reported cases of coronary artery fistula terminating in left ventricle (Midell et al.), 199
size and hemodynamic events within and about canine femoral arteriovenous fistulas (Lavigne et al.), 551
Flow, blood, coronary, in dog, effects of thoracotomy on (Yeager and Haddy), 907
pulmonary, long-term effect of superior vena cava–pulmonary artery anastomosis on (Laks et al.), 253
with internal mammary artery and saphenous vein grafts, physiological basis for differences in: coronary artery bypass (Dobrin et al.), 445
Foreign bodies in children, inhalation of: report of 500 cases (Aytaç et al.), 145
Fracture and embolization of Björk-Shiley disc: fatal failure of prosthetic mitral valve (Norenberg et al.), 925
strut, in De Bakey valve: successful reoperation and valve replacement (Zumbro et al.), 469

Function, pulmonary, regional, during experimental unilateral pneumothorax in awake state (Moran et al.), 396
studies, ventricular, and multistage treadmill test, evaluation of saphenous vein bypass surgery with (Bode and Zajtchuk), 44

G

Gastroesophageal reflux, cricopharyngeal myotomy as method of treating cricopharyngeal dysphagia secondary to (Henderson and Marryatt), 721
intraoperative and postoperative esophageal manometric findings with Collis gastroplasty and Belsey hiatal hernia repair for (Cooper et al.), 744
Gastroplasty, Collis, and Belsey hiatal hernia repair for gastroesophageal reflux, intraoperative and postoperative esophageal manometric findings with (Cooper et al.), 744
Glutaraldehyde-treated heterograft valve: some engineering observations (Thomson and Barratt-Boyes), 317
porcine heterograft prosthesis, acute hemodynamic alterations after aortic valve replacement with (Mookerjee et al.), 788
Graft(s), cardiac, homologous, hemodynamic evaluation of left ventricular bypass with (Losman et al.), 695
internal mammary artery and saphenous vein, physiological basis for differences in flow with: coronary artery bypass (Dobrin et al.), 445
Grafting, patch, for coarctation of aorta, management of pseudoaneurysm following (Kirsh et al.), 636
Groove, atrioventricular, pseudoaneurysm of: late complication of mitral valve replacement (Diethrich et al.), 47

H

^{3}H-methylprednisolone in acute myocardial ischemia, tissue uptake of (Lefer et al.), 37
Heart(s), canine, after warm ischemia (zero to thirty minutes) and one to two days of hypothermic storage, preservation of: comparative analysis of crystalloid and colloid solutions with different osmolarity and ion composition (Toledo-Pereyra et al.), 594
disease, congenital, in Down's syndrome, surgical management of (Katlic et al.), 204
cyanotic, complex, management of bilateral ductus arteriosus in (Lenox et al.), 607
nonhypertrophied, safety of induced ventricular fibrillation during cardiopulmonary bypass in (Cox et al.), 423
surgery, evaluation of computer-aided monitoring of patients after (Edmunds et al.), 890
surgical treatment of echinococcal cyst of: report of two cases and review of world literature (Shakibi et al.), 941
syndrome, left, hypoplastic: experience with operation to establish functionally normal circulation (Doty and Knott), 624
univentricular, having two atrioventricular valves, correction of (McGoon et al.), 218
valves, prosthetic, replacement of: fifteen-year experience (Sandza et al.), 864
Hemangiopericytoma, pulmonary, primary (Razzuk et al.), 227
Hemodynamic evaluation of left ventricular bypass with homologous cardiac graft (Losman et al.), 695
Hemodynamic events within and about canine femoral arteriovenous fistulas, fistula size and (Lavigne et al.), 551
Hemolysis, intravascular, severe, after aortic valve replacement: reversal by left ventricular apico–abdominal aortic composite conduit (Cooley and Norman), 322
Hernia repair, hiatal, Belsey, and Collis gastroplasty for gastroesophageal reflux, intraoperative and postoperative esophageal manometric findings with (Cooper et al.), 744
Heterograft, bovine, intramural lymphatic cyst of (Fox et al.), 939
prosthesis, porcine, glutaraldehyde-treated, acute hemodynamic alterations after aortic valve replacement with (Mookerjee et al.), 788
valve, glutaraldehyde-treated: some engineering observations (Thomson and Barratt-Boyes), 317
Heterotopic cardiac transplantation over orthotopic cardiac transplantation in management of severe acute rejection, advantage of (Barnard et al.), 918
His bundle electrograms in 51 patients requiring permanent tranvenous pacemakers (Gould et al.), 28
Holman, Emile (1890-1977), 949 (obit.)
Homologous cardiac graft, hemodynamic evaluation of left ventricular bypass with (Losman et al.), 695
Honored Guest's Address: I remember (Dubost), 174
Hypertension and renin-angiotensin system following open-heart surgery (Taylor et al.), 840
systemic, associated with coronary artery bypass surgery: predisposing factors, hemodynamic characteristics, humoral profile, and treatment (Roberts et al.), 846
Hypertrophic subaortic stenosis, idiopathic, with combined approach through aorta and left ventricle, surgical resection in: long-term follow-up study in 49 patients (Agnew et al.), 307
Hypertrophied, non-, hearts, safety of induced ventricular fibrillation during cardiopulmonary bypass in (Cox et al.), 423
Hypopharynx, traumatic perforation of, in infants (Talbert et al.), 152
Hypoplastic left heart syndrome: experience with operation to establish functionally normal circulation (Doty and Knott), 624
Hypothermia, cardiac (Phillips et al.), 159 (letter)
induced, in dogs with acute myocardial infarction and shock (Boyer and Gerstein), 286
topical, profound (Spotnitz), 814 (letter); Reply (Buckberg), 814
Hypothermic potassium-induced arrest, isotonic, preliminary clinical experience with (Tyers et al.), 674
storage, one to two days of, and warm ischemia (zero to thirty minutes), preservation of canine hearts after: comparative analysis of crystalloid and colloid solutions with different osmolarity and ion composition (Toledo-Pereyra et al.), 594

I

I remember (Dubost), 174 (Honored Guest's Address)
Idiopathic hypertrophic subaortic stenosis with combined approach through aorta and left ventricle, surgical resection in: long-term follow-up study in 49 patients (Agnew et al.), 307
Immunoprofile studies for patients with bronchogenic carcinoma. I. Correlation of pretherapy studies with survival (Liebler et al.), 506
Immunosuppressed patients, early pleural decortication for thoracic empyema in (Fishman and Ellertson), 537
Immunosuppression and localized chemical carcinogenesis upon bronchial preneoplasia in dog, effects of (Benfield et al.), 752
Implantable artificial lung: preliminary report (Morin et al.), 130
Implantation, re-, lung, bilateral, two-stage, in dog (Planché et al.), 238

Infancy, correction with intraventricular conduit in: double-outlet right ventricle (S,D,D), VSD related to pulmonary artery, and pulmonary stenosis absent (Stewart), 70
of Type B interrupted aortic arch with ventricular septal defect in (Monro et al.), 618
repair of tetralogy of Fallot in: early and late results (Castaneda et al.), 372
Infant(s) with esophageal atresia, selective surgical management based upon clinical status in (Randolph et al.), 335
successful surgical repair in: subtotal cor triatriatum with left partial anomalous pulmonary venous return (Jennings and Innes), 461
traumatic perforation of hypopharynx in (Talbert et al.), 152
Infarction angina, post–myocardial, by intra-aortic balloon pumping and emergency revascularization, treatment of (Bardet et al.), 299
myocardial, acute, and shock, induced hypothermia in dogs with (Boyer and Gerstein), 286
inferior wall, after aorta-coronary bypass surgery, disappearance of electrocardiographic pattern of (Kennedy et al.), 586
Infection, *Coccidioides immitis*, unusual manifestation of (Fee et al.), 548
Infusion of cardiotomy suction blood during extracorporeal circulation for coronary artery bypass surgery, effects of (Okies et al.), 440
Inhalation of foreign bodies in children: report of 500 cases (Aytaç et al.), 145
Injuries, lung, penetrating, experimental, systemic air embolism in (Ponn et al.), 766
Insufficiency, pulmonary, role of carbon dioxide in development of (Askanazi et al.), 118
tricuspid, after Mustard procedure with Carpentier annuloplasty ring, treatment of (Dunn et al.), 784
Intercostal nerve block following thoracotomy, medical benefits of: kindness pays dividends (Fleming and Sarafian), 273
Interposition, colon, role of preoperative mesenteric arteriography in (Ventemiglia et al.), 98
Intra-aortic balloon pumping and emergency revascularization, treatment of post–myocardial infarction angina by (Bardet et al.), 299
postcardiotomy, prognostic indices for survival during: methods of scoring and classification, with implications for left ventricular assist device utilization (Norman et al.), 709
Intramural lymphatic cyst of bovine heterograft (Fox et al.), 939
Ion composition and osmolarity, different, comparative analysis of crystalloid and colloid solutions with: preservation of canine hearts after warm ischemia (zero to thirty minutes) and one to two days of hypothermic storage (Toledo-Pereyra et al.), 594
Ischemia, myocardial, acute, tissue uptake of ^{3}H-methylprednisolone in (Lefer et al.), 37
warm (zero to thirty minutes) and one to two days of hypothermic storage, preservation of canine hearts after: comparative analysis of crystalloid and colloid solutions with different osmolarity and ion composition (Toledo-Pereyra et al.), 594
Ischemic cardiomyopathy: medical versus surgical treatment (Faulkner et al.), 77
Isotonic hypothermic postassium-induced arrest, preliminary clinical experience with (Tyers et al.), 674

K

Kindness pays dividends: medical benefits of intercostal nerve block following thoracotomy (Fleming and Sarafian), 273

L

Laceration, pulmonary, extensive, caused by blunt trauma (Hankins et al.), 519
Leaflet(s), valve, aortic, during cardiac cycle, in vivo study of dimensional changes of (Brewer et al.), 645
tricuspid, during traction on infected, entrapped endocardial pacemaker electrode, avulsion of: role of electrode design (Lee et al.), 433
Leiomyosarcoma of superior vena cava (Stefanini), 816 (letter); Reply (Bergmann), 816
Letter, open (Blades), 3
Lidocaine and epinephrine on myocardial preservation following cardiopulmonary bypass in dog, effects of (Schaub et al.), 571
Liposarcoma, primary, of mediastinum: report of case and review of literature (Schweitzer and Aguam), 83
Lobar emphysema, congenital, resulting from bronchial sling around normal right main pulmonary artery (Canty et al.), 126
Lung, artificial, implantable: preliminary report (Morin et al.), 130
cancer, results of surgical treatment in (Martini and Beattie), 499
injuries, penetrating, experimental, systemic air embolism in (Ponn et al.), 766
metabolism, roles of ventilation and perfusion in: surgical implications (Modry et al.), 275
radiation-induced carcinoma of—St. Lawrence tragedy (Wright and Couves), 495
reimplantation, bilateral, two-stage, in dog (Planché et al.), 238
Lymphatic cyst, intramural, of bovine heterograft (Fox et al.), 939

M

Malignant obstruction of superior vena cava and its palliation: report of four cases (Avasthi and Moghissi), 244
schwannoma, melanotic, of right atrium (Gelfand et al.), 808
Mammary artery, internal, and saphenous vein grafts, physiological basis for differences in flow with: coronary artery bypass (Dobrin et al.), 445
Median sternotomy closure with running wire: simplified method (Rubio et al.), 651
Mediastinitis, sclerosing, with occlusion of pulmonary veins: manifestations and management (Dye et al.), 137
Mediastinum, primary liposarcoma of: report of case and review of literature (Schweitzer and Aguam), 83
Melanotic malignant schwannoma of right atrium (Gelfand et al.), 808
Membrane stabilization, multidose cardioplegia, and appropriate pH reperfusion, prolonged safe aortic clamping by combining (Follette et al.), 682
Mesenteric arteriography, preoperative, in colon interposition, role of (Ventemiglia et al.), 98
Metabolism, lung, roles of ventilation and perfusion in: surgical implications (Modry et al.), 275
Metastases, pulmonary, multiple, bilateral, benign giant cell tumor of femur with (Inoue et al.), 935
Methoxamine on coronary circulation during cardiopulmonary bypass, effects of (Symmonds et al.), 577
Microspheres, radioactive, experimental study of myocardial perfusion utilizing: hemodynamic evaluation of selective arterialization of coronary venous system (Hochberg), 774
Mitral replacement, isolated, with stent-mounted antibiotic-treated aortic allograft valves (Heng et al.), 230

Mitral—Cont'd
valve obstruction, prosthetic, hitherto undescribed cause of (Jones et al.), 116
replacement, late complication of: pseudoaneurysm of atrioventricular groove (Diethrich et al.), 47
Monitoring, computer-aided, of patients after heart surgery, evaluation of (Edmunds et al.), 890
Mustard procedure with Carpentier annuloplasty ring, treatment of tricuspid insufficiency after (Dunn et al.), 784
Myocardial infarction, acute, and shock, induced hypothermia in dogs with (Boyer and Gerstein), 286
angina, post–, by intra-aortic balloon pumping and emergency revascularization, treatment of (Bardet et al.), 299
inferior wall, after aorta-coronary bypass surgery, disappearance of ECG pattern of (Kennedy et al.), 586
ischemia, acute, tissue uptake of ^{3}H-methylprednisolone in (Lefer et al.), 37
preservation (Tyers), 813 (letter); Replies (Effler and Viljoen), 813
following cardiopulmonary bypass in dog, effects of lidocaine and epinephrine on (Schaub et al.), 571
and steroids (Codd et al.), 418
revascularization in patients with unstable angina (Phillips et al.), 159 (letter)
Myotomy, cricopharyngeal, as method of treating cricopharyngeal dysphagia secondary to gastroesophageal reflux (Henderson and Marryatt), 721

N

Nations, developing, our obligation to (Bahnson), 168 (Presidential Address)
Neonatal respiratory failure, extracorporeal circulation (ECMO) in (Bartlett et al.), 826
Nerve block, intercostal, following thoracotomy, medical benefits of: kindness pays dividends (Fleming and Sarafian), 273
Note from the Editor (McGoon), 167

O

Obituaries
Brian Blades, 950
Emile Holman (1890-1977), 949
Thomas Hannahan Burford (1907-1977), 947
Obligation to developing nations (Bahnson), 168 (Presidential Address)
Obstruction, malignant, of superior vena cava and its palliation: report of four cases (Avasthi and Moghissi), 244
outflow, left ventricular, in d-transposition of great arteries, resection of (Idriss et al.), 343
valve, mitral, prosthetic, hitherto undescribed cause of (Jones et al.), 116
Occlusion of pulmonary veins, sclerosing mediastinitis with: manifestations and management (Dye et al.), 137
Open letter (Blades), 3
heart surgery, effect of dipyridamole on thrombocyte count and bleeding tendency in (Nuutinen et al.), 295
hypertension and renin-angiotensin system following (Taylor et al.), 840
use of autologous fascia lata as pericardial substitute following (Kohanna et al.), 14
Operation, Collis-Belsey, combined, complications and failings of (Orringer and Sloan), 726
Origin, anomalous, of left coronary artery (Trivellato), 160 (letter); Reply (Matsumoto), 160
Orthotopic cardiac transplantation in management of severe acute rejection, advantage of heterotopic cardiac transplantation over (Barnard et al.), 918
Osmolarity and ion composition, different, comparative analysis of crystalloid and colloid solutions with: preservation of canine hearts after warm ischemia (zero to thirty minutes) and one to two days of hypothermic storage (Toledo-Pereyra et al.), 594
Outflow obstruction, left ventricular, in d-transposition of great arteries, resection of (Idriss et al.), 343

P

Pacemaker(s) electrode, endocardial, entrapped, infected, avulsion of tricuspid valve leaflet during traction on: role of electrode design (Lee et al.), 433
recall, management of (MacGregor et al.), 657
transvenous, permanent, His bundle electrograms in 51 patients requiring (Gould et al.), 28
Pacing catheter, endocardial, permanent, pericardial tamponade due to perforation with (Bassan and Merin), 51
diaphragm: evaluation of current waveforms for effective ventilation (Kaneyuki et al.), 109
Palliation, malignant obstruction of superior vena cava and its: report of four cases (Avasthi and Moghissi), 244
Pediatric esophageal perforation (Shepherd et al.), 261
Penetrating chest wounds, prophylactic antibiotics in treatment of: prospective double-blind study (Grover et al.), 528
lung injuries, experimental, systemic air embolism in (Ponn et al.), 766
Perforation, esophageal, pediatric (Shepherd et al.), 261
with permenent endocardial pacing catheter, pericardial tamponade due to (Bassan and Merin), 51
traumatic, of hypopharynx in infants (Talbert et al.), 152
Perfusion, coronary, continuous, or cold cardioplegia: report on preliminary clinical experience as assessed cytochemically (Braimbridge et al.), 900
myocardial, utilizing radioactive microspheres, experimental study of: hemodynamic evaluation of selective arterialization of coronary venous system (Hochberg), 774
and ventilation in lung metabolism, roles of: surgical implications (Modry et al.), 275
Pericardial constriction as late complication of coronary bypass surgery (Brown and Older), 61
substitute following open-heart surgery, use of autologous fascia lata as (Kohanna et al.), 14
tamponade due to perforation with permanent endocardial pacing catheter (Bassan and Merin), 51
Pericardiectomy for chronic pericarditis, changing spectrum of: occult constrictive pericarditis (Kilman et al.), 668
Pericarditis, chronic, changing spectrum of pericardiectomy for: occult constructive pericarditis (Kilman et al.), 668
Permanent endocardial pacing catheter, pericardial tamponade due to perforation with (Bassan and Merin), 51
transvenous pacemakers, His bundle electrograms in 51 patients requiring (Gould et al.), 28
Plasmacytoma, primary, of atrium: report of case with successful surgical management (Torstveit et al.), 563
Pleural decortication, early, for thoracic empyema in immunosuppressed patients (Fishman and Ellertson), 537
Pneumatic rupture, accidental, of esophagus (Gelfand et al.), 142
Pneumonectomy for tuberculosis, cardiorespiratory failure in patients with: long-term effects of thoracoplasty (Huang and Lyons), 409

Pneumothorax in children with chronic pulmonary disease, management of (Luck et al.), 834
unilateral, experimental, in awake state, regional pulmonary function during (Moran et al.), 396
Postcardiotomy intra-aortic balloon pumping, prognostic indices for survival during: methods of scoring and classification, with implications for left ventricular assist device utilization (Norman et al.), 709
Potassium-induced arrest, hypothermic, isotonic, preliminary clinical experience with (Tyers et al.), 674
Preneoplasia, bronchial, in dog, effects of localized chemical carcinogenesis and immunosuppression upon (Benfield et al.), 752
Preservation of canine hearts after warm ischemia (zero to thirty minutes) and one to two days of hypothermic storage: comparative analysis of crystalloid and colloid solutions with different osmolarity and ion composition (Toledo-Pereyra et al.), 594
myocardial (Tyers), 813 (letter); Replies (Effler and Viljoen), 813
following cardiopulmonary bypass in dog, effects of lidocaine and epinephrine on (Schaub et al.), 571
and steroids (Codd et al.), 418
Presidential Address: assured survival (Dugan), 821
our obligation to developing nations (Bahnson), 168
Pressure, airway, positive, continuous, versus positive end-expiratory pressure in respiratory distress syndrome (Shah et al.), 557
Primary cardiac chondromyxosarcoma—clinical and echocardiographic manifestations: case report (Winer et al.), 567
liposarcoma of mediastinum: report of case and review of literature (Schweitzer and Aguam), 83
plasmacytoma of atrium: report of case with successful surgical management (Torstveit et al.), 563
pulmonary hemangiopericytoma (Razzuk et al.), 227
Procedure, Mustard, with Carpentier annuloplasty ring, treatment of tricuspid insufficiency after (Dunn et al.), 784
Prophylactic antibiotics in treatment of penetrating chest wounds: prospective double-blind study (Grover et al.), 528
Prosthesis(es), different, seven, results with: long-term survival after tricuspid valve replacement (Jugdutt et al.), 20
heterograft, porcine, glutaraldehyde-treated, acute hemodynamic alterations after aortic valve replacement with (Mookerjee et al.), 788
valve, aortic, Björk-Shiley, ultrasonic evaluation of thrombosis of (Orzan et al.), 11
Prosthetic heart valves, replacement of: fifteen-year experience (Sandza et al.), 864
mitral valve obstruction, hitherto undescribed cause of (Jones et al.), 116
Pseudoaneurysm of atrioventricular groove: late complication of mitral valve replacement (Diethrich et al.), 47
following patch grafting for coarctation of aorta, management of (Kirsh et al.), 636
Pulmonary annulus, in situ placement of valved conduit at (Laks et al.), 640
arterial closure, trans–, of ventricular septal defect (Kawashima et al.), 191
artery anastomosis, superior vena cava–, on pulmonary blood flow, long-term effect of (Laks et al.), 253
main, right, normal, congenital lobar emphysema resulting from bronchial sling around (Canty et al.), 126
VSD related to, double-outlet right ventricle (S,D,D), and pulmonary stenosis absent: correction with intraventricular conduit in infancy (Stewart), 70
Pulmonary—Cont'd
aspergillomas, surgical treatment of (Garvey et al.), 542
dirofilariasis in man: case report and review of literature (Robinson et al.), 403
disease, chronic, management of pneumothorax in children with (Luck et al.), 834
function, regional, during experimental unilateral pneumothorax in awake state (Moran et al.), 396
hemangiopericytoma, primary (Razzuk et al.), 227
insufficiency, role of carbon dioxide in development of (Askanazi et al.), 118
laceration, extensive, caused by blunt trauma (Hankins et al.), 519
metastases, multiple, bilateral, benign giant cell tumor of femur with (Inoue et al.), 935
stenosis in tetralogy of Fallot, surgical management of (Pacifico et al.), 382
and systemic venous drainage, anomalous, surgical correction of case of common atrium with (Ghosh et al.), 604
veins, sclerosing mediastinitis with occlusion of: manifestations and management (Dye et al.), 137
venous return, anomalous, partial, left, subtotal cor triatriatum with: successful surgical repair in infant (Jennings and Innes), 461
Pulmonic and tricuspid stenosis, combined: clinical, echocardiographic, hemodynamic, surgical, and pathological features (Mehl et al.), 55
Pulsatile and continuous cardiopulmonary bypass, serum and urinary amylase levels following (Moores et al.), 73
Pumping, balloon, intra-aortic, and emergency revascularization, treatment of post–myocardial infarction angina by (Bardet et al.), 299
postcardiotomy, prognostic indices for survival during: methods of scoring and classification, with implications for left ventricular assist device utilization (Norman et al.), 709

R

Radiation-induced carcinoma of lung—St. Lawrence tragedy (Wright and Couves), 495
Recall, pacemaker, management of (MacGregor et al.), 657
Reconstruction of sternal and abdominal wall defects in case of desmoid tumor (Baffi et al.), 105
surgical, with special reference to delayed closure: traumatic rupture of diaphragm (Feigenberg et al.), 249
Reflux, gastroesophageal, cricopharyngeal myotomy as method of treating cricopharyngeal dysphagia secondary to (Henderson and Marryatt), 721
intraoperative and postoperative esophageal manometric findings with Collis gastroplasty and Belsey hiatal hernia repair for (Cooper et al.), 744
Reimplantation, lung, bilateral, two-stage, in dog (Planché et al.), 238
Rejection, acute, severe, advantage of heterotopic cardiac transplantation over orthotopic cardiac transplantation in management of (Barnard et al.), 918
Renaissance man—Dr. Frank Robicsek (Keshishian), 159 (letter)
Renin-angiotensin system following open-heart surgery, hypertension and (Taylor et al.), 840
Repair by extended aortoplasty: supravalvular aortic stenosis (Doty et al.), 362
hiatal hernia, Belsey, and Collis gastroplasty for gastroesophageal reflux, intraoperative and postoperative esophageal manometric findings with (Cooper et al.), 744

Repair—Cont'd
one-stage, total, of interrupted aortic arch associated with aortic septal defect and patent ductus arteriosus (Ito et al.), 913
surgical, successful, in infant: subtotal cor triatriatum with left partial anomalous pulmonary venous return (Jennings and Innes), 461
of tetralogy of Fallot in infancy: early and late results (Castaneda et al.), 372
transatrial, of ventricular septal defects with reference to their anatomic classification (Lincoln et al.), 183
Reperfusion, pH, appropriate, membrane stabilization, and multidose cardioplegia, prolonged safe aortic clamping by combining (Follette et al.), 682
Replacement, mitral, isolated, with stent-mounted antibiotic-treated aortic allograft valves (Heng et al.), 230
of prosthetic heart valves: fifteen-year experience (Sandza et al.), 864
and resection of aneurysm of aortic arch, method for (Malavé et al.), 798
of trachea with dura mater: experimental work (Sabás et al.), 761
valve, in active endocarditis, long-term outlook for (Wilcox et al.), 860
aortic, with glutaraldehyde-treated porcine heterograft prosthesis, acute hemodynamic alterations after (Mookerjee et al.), 788
isolated, long-term follow-up after (Copeland et al.), 875
in patients with valvular aortic stenosis (Muna et al.), 65
severe intravascular hemolysis after: reversal by left ventricular apico-abdominal aortic composite conduit (Cooley and Norman), 322
mitral, late complication of: pseudoaneurysm of atrioventricular groove (Diethrich et al.), 47
successful reoperation and: strut fracture in De Bakey valve (Zumbro et al.), 469
tricuspid, long-term survival after: results with seven different prostheses (Jugdutt et al.), 20
Resection of aneurysm of aortic arch without cardiopulmonary bypass (Chu et al.), 928
of left ventricular outflow obstruction in d-transposition of great arteries (Idriss et al.), 343
and prosthetic replacement of aneurysm of aortic arch, method for (Malavé et al.), 798
surgical, in idiopathic hypertrophic subaortic stenosis with combined approach through aorta and left ventricle: long-term follow-up study in 49 patients (Agnew et al.), 307
Respiratory distress syndrome, continuous positive airway pressure versus positive end-expiratory pressure in (Shah et al.), 557
failure, neonatal, extracorporeal circulation (ECMO) in (Bartlett et al.), 826
Return, venous, pulmonary, anomalous, partial, left, subtotal cor triatriatum with: successful surgical repair in infant (Jennings and Innes), 461
Revascularization, emergency, and intra-aortic balloon pumping, treatment of post–myocardial infarction angina by (Bardet et al.), 299
myocardial, in patients with unstable angina (Phillips et al.), 159 (letter)
Ring, annuloplasty, Carpentier, treatment of tricuspid insufficiency after Mustard procedure with (Dunn et al.), 784
Robicsek, Dr. Frank—Renaissance man (Keshishian), 159 (letter)
Rupture, pneumatic, accidental, of esophagus (Gelfand et al.), 142
into right atrium, surgical treatment of coronary artery aneurysm with (Gray and McMartin), 455
Rupture—Cont'd
traumatic, of diaphragm: surgical reconstruction with special reference to delayed closure (Feigenberg et al.), 249

S

St. Lawrence tragedy—radiation-induced carcinoma of lung (Wright and Couves), 495
Samson Thoracic Surgical Society: Announcement of 1978 Annual Meeting, 333, 493, 655, 819, 953
Saphenous vein and internal mammary artery grafts, physiological basis for differences in flow with: coronary artery bypass (Dobrin et al.), 445
Schwannoma, malignant, melanotic, of right atrium (Gelfand et al.), 808
Sclerosing mediastinitis with occlusion of pulmonary veins: manifestations and management (Dye et al.), 137
Serum and urinary amylase levels following pulsatile and continuous cardiopulmonary bypass (Moores et al.), 73
Shock and acute myocardial infarction, induced hypothermia in dogs with (Boyer and Gerstein), 286
Shumacker operation, modified, for correction of transposition of great arteries (Alvarado), 614
Sling, bronchial, around normal right main pulmonary artery, congenital lobar emphysema resulting from (Canty et al.), 126
Solutions, crystalloid and colloid, with different osmolarity and ion composition, comparative analysis of: preservation of canine hearts after warm ischemia (zero to thirty minutes) and one to two days of hypothermic storage (Toledo-Pereyra et al.), 594
Spasm, diffuse, of esophagus: clinical, manometric, and surgical considerations (Leonardi et al.), 736
Stenosis, aortic, subvalvular, discrete: evaluation of operative therapy (Hardesty et al.), 352
supravalvular: repair by extended aortoplasty (Doty et al.), 362
valvular, aortic valve replacement in patients with (Muna et al.), 65
pulmonary, absent, double-outlet right ventricle (S,D,D), and VSD related to pulmonary artery: correction with intraventricular conduit in infancy (Stewart), 70
in tetralogy of Fallot, surgical management of (Pacifico et al.), 382
subaortic, hypertrophic, idiopathic, with combined approach through aorta and left ventricle, surgical resection in: long-term follow-up study in 49 patients (Agnew et al.), 307
tricuspid and pulmonic, combined: clinical, echocardiographic, hemodynamic, surgical, and pathological features (Mehl et al.), 55
Stent-mounted antibiotic-treated aortic allograft valves, isolated mitral replacement with (Heng et al.), 230
Sternal and abdominal wall defects in case of desmoid tumor, reconstruction of (Baffi et al.), 105
Sternotomy closure, median, with running wire: simplified method (Rubio et al.), 651
Steroids and myocardial preservation (Codd et al.), 418
Strut fracture in De Bakey valve: successful reoperation and valve replacement (Zumbro et al.), 469
Subaortic stenosis, hypertrophic, idiopathic, with combined approach through aorta and left ventricle, surgical resection in: long-term follow-up study in 49 patients (Agnew et al.), 307
Subvalvular aortic stenosis, discrete: evaluation of operative therapy (Hardesty et al.), 352

Superior vena cava, leiomyosarcoma of (Stefanini), 816 (letter); Reply (Bergmann), 816
and its palliation, malignant obstruction of: report of four cases (Avasthi and Moghissi), 244
–pulmonary artery anastomosis on pulmonary blood flow, long-term effect of (Laks et al.), 253
Supravalvular aortic stenosis: repair by extended aortoplasty (Doty et al.), 362
Surgery, cardiac, autologous blood transfusion during: re-evaluation of three methods (Kaplan et al.), 4
heart, evaluation of computer-aided monitoring of patients after (Edmunds et al.), 890
open-heart, effect of dipyridamole on thrombocyte count and bleeding tendency in (Nuutinen et al.), 295
hypertension and renin-angiotensin system following (Taylor et al.), 840
Survival, assured (Dugan), 821 (Presidential Address)
Syndrome, distress, respiratory, continuous positive airway pressure versus positive end-expiratory pressure in (Shah et al.), 557
Down's, surgical management of congenital heart disease in (Katlic et al.), 204
left heart, hypoplastic: experience with operation to establish functionally normal circulation (Doty and Knott), 624
Systemic air embolism in experimental penetrating lung injuries (Ponn et al.), 766
hypertension associated with coronary artery bypass surgery: predisposing factors, hemodynamic characteristics, humoral profile, and treatment (Roberts et al.), 846
and pulmonary venous drainage, anomalous, surgical correction of case of common atrium with (Ghosh et al.), 604

T

Tamponade, pericardial, due to perforation with permanent endocardial pacing catheter (Bassan and Merin), 51
Tetralogy of Fallot with aorticopulmonary window: report of two surgical cases (Castaneda and Kirklin), 467
in infancy, repair of: early and late results (Castaneda et al.), 372
successful correction of complete form of atrioventricular canal associated with: case reprot (Zavanella et al.), 195
surgical management of pulmonary stenosis in (Pacifico et al.), 382
Thoracic empyema in immunosuppressed patients, early pleural decortication for (Fishman and Ellertson), 537
Thoracoplasty, long-term effects of: cardiorespiratory failure in patients with pneumonectomy for tuberculosis (Huang and Lyons), 409
Thoracotomy on coronary blood flow in dog, effects of (Yeager and Haddy), 907
medical benefits of intercostal nerve block following: kindness pays dividends (Fleming and Sarafian), 273
Thrombocyte count and bleeding tendency in open-heart surgery, effect of dipyridamole on (Nuutinen et al.), 295
Thrombosis of Björk-Shiley aortic valve prosthesis, ultrasonic evaluation of (Orzan et al.), 11
Tissue uptake of ^{3}H-methylprednisolone in acute myocardial ischemia (Lefer et al.), 37
Topical hypothermia, profound (Spotnitz), 814 (letter); Reply (Buckberg), 814
Trachea with dura mater, replacement of: experimental work (Sabás et al.), 761
Transatrial repair of ventricular septal defects with reference to their anatomic classification (Lincoln et al.), 183
Transfer of journal office, announcement of, 1
Transfusion, blood, autologous, during cardiac surgery: re-evaluation of three methods (Kaplan et al.), 4
Transplantation, cardiac, heterotopic, over orthotopic cardiac transplantation in management of severe acute rejection, advantage of (Barnard et al.), 918
Transposition of great arteries, modified Shumacker operation for correction of (Alvarado), 614
resection of left ventricular outflow obstruction in (Idriss et al.), 343
without significant ventricular septal defect or patent ductus arteriosus, anatomic correction of (Mauck et al.), 631
Trans–pulmonary arterial closure of ventricular septal defect (Kawashima et al.), 191
Transvenous pacemakers, permanent, His bundle electrograms in 51 patients requiring (Gould et al.), 28
Trauma, blunt, extensive pulmonary laceration caused by (Hankins et al.), 519
Traumatic perforation of hypopharynx in infants (Talbert et al.), 152
rupture of diaphragm: surgical reconstruction with special reference to delayed closure (Feigenberg et al.), 249
Treadmill test, multistage, and ventricular function studies, evaluation of saphenous vein bypass surgery with (Bode and Zajtchuk), 44
Triatriatum, cor, subtotal, with left partial anomalous pulmonary venous return: successful surgical repair in infant (Jennings and Innes), 461
Tricuspid atresia (Anderson et al.), 325 (letter); Reply (Bharati and Lev), 328
insufficiency after Mustard procedure with Carpentier annuloplasty ring, treatment of (Dunn et al.), 784
and pulmonic stenosis, combined: clinical, echocardiographic, hemodynamic, surgical, and pathological features (Mehl et al.), 55
valve replacement, long-term survival after: results with seven different prostheses (Jugdutt et al.), 20
Tuberculosis, cardiorespiratory failure in patients with pneumonectomy for: long-term effects of thoracoplasty (Huang and Lyons), 409
Tumor, desmoid, reconstruction of sternal and abdominal wall defects in case of (Baffi et al.), 105
giant cell, benign, of femur with bilateral multiple pulmonary metastases (Inoue et al.), 935

U

Ultrasonic evaluation of thrombosis of Björk-Shiley aortic valve prosthesis (Orzan et al.), 11
Univentricular heart having two atrioventricular valves, correction of (McGoon et al.), 218
Urinary and serum amylase levels following pulsatile and continuous cardiopulmonary bypass (Moores et al.), 73

V

Valve(s), allograft, aortic, antibiotic-treated, stent-mounted, isolated mitral replacement with (Heng et al.), 230
atrioventricular, two, correction of univentricular heart having (McGoon et al.), 218
De Bakey, strut fracture in: successful reoperation and valve replacement (Zumbro et al.), 469
heart, prosthetic, replacement of: fifteen-year experience (Sandza et al.), 864
heterograft, glutaraldehyde-treated: some engineering observations (Thomson and Barratt-Boyes), 317

Valve(s)—Cont'd
leaflet(s), aortic, during cardiac cycle, in vivo study of dimensional changes of (Brewer et al.), 645
tricuspid, during traction on infected, entrapped endocardial pacemaker electrode, avulsion of: role of electrode design (Lee et al.), 433
mitral, prosthetic, fatal failure of: fracture and embolization of Björk-Shiley disc (Norenberg et al.), 925
obstruction, mitral, prosthetic, hitherto undescribed cause of (Jones et al.), 116
prosthesis, aortic, Björk-Shiley, ultrasonic evaluation of thrombosis of (Orzan et al.), 11
replacement in active endocarditis, long-term outlook for (Wilcox et al.), 860
aortic, with glutaraldehyde-treated porcine heterograft prosthesis, acute hemodynamic alterations after (Mookerjee et al.), 788
isolated, long-term follow-up after (Copeland et al.), 875
in patients with valvular aortic stenosis (Muna et al.), 65
severe intravascular hemolysis after: reversal by left ventricular apico–abdominal aortic composite conduit (Cooley and Norman), 322
mitral, late complication of: pseudoaneurysm of atrioventricular groove (Diethrich et al.), 47
tricuspid, long-term survival after: results with seven different prostheses (Jugdutt et al.), 20
Valved conduit at pulmonary annulus, in situ placement of (Laks et al.), 640
Valvular, sub-, aortic stenosis, discrete: evaluation of operative therapy (Hardesty et al.), 352
supra-, aortic stenosis: repair by extended aortoplasty (Doty et al.), 362
Vein(s), pulmonary, sclerosing mediastinitis with occlusion of: manifestations and management (Dye et al.), 137
saphenous, and internal mammary artery grafts, physiological basis for differences in flow with: coronary artery bypass (Dobrin et al.), 445
Vena cava, superior, leiomyosarcoma of (Stefanini), 816 (letter); Reply (Bergmann), 816
and its palliation, malignant obstruction of: report of four cases (Avasthi and Moghissi), 244
–pulmonary artery anastomosis, on pulmonary blood flow, long-term effect of (Laks et al.), 253
Venous drainage, systemic and pulmonary, anomalous, surgical correction of case of common atrium with (Ghosh et al.), 604
return, pulmonary, anomalous, partial, left, subtotal cor triatriatum with: successful surgical repair in infant (Jennings and Innes), 461
system, coronary, hemodynamic evaluation of selective arterialization of: experimental study of myocardial perfusion utilizing radioactive microspheres (Hochberg), 774
Ventilation, effective, evaluation of current waveforms for: diaphragm pacing (Kaneyuki et al.), 109
and perfusion in lung metabolism, roles of: surgical implications (Modry et al.), 275
Ventricle, left, experimental bypass of (Knott and Doty), 436
right, double-outlet (S,D,D), VSD related to pulmonary artery, and pulmonary stenosis absent: correction with intraventricular conduit in infancy (Stewart), 70
Ventricular assist device utilization, left, methods of scoring and classification, with implications for: prognostic indices for survival during postcardiotomy intra-aortic balloon pumping (Norman et al.), 709
bypass, left, with homologous cardiac graft, hemodynamic evaluation of (Losman et al.), 695
fibrillation, induced, during cardiopulmonary bypass in nonhypertropied hearts, safety of (Cox et al.), 423
fistula, left coronary artery–left, surgical closure of: second case reported in literature and review of five previously reported cases of coronary artery fistula terminating in left ventricle (Midell et al.), 199
function studies and multistage treadmill test, evaluation of saphenous vein bypass surgery with (Bode and Zajtchuk), 44
outflow obstruction, left, in d-transposition of great arteries, resection of (Idriss et al.), 343
septal defect(s), deleterious effects of surgically induced complete right bundle branch block on long-term follow-up results of closure of (Yasui et al.), 210
in infancy, correction of Type B interrupted aortic arch with (Monro et al.), 618
with reference to their anatomic classification, transatrial repair of (Lincoln et al.), 183
related to pulmonary artery, double-outlet right ventricle (S,D,D), and pulmonary stenosis absent: correction with intraventricular conduit in infancy (Stewart), 70
significant, or patent ductus arteriosus, anatomic correction of transposition of great arteries without (Mauck et al.), 631
trans–pulmonary arterial closure of (Kawashima et al.), 191

W

Waveforms, current, for effective ventilation, evaluation of: diaphragm pacing (Kaneyuki et al.), 109
Window, aorticopulmonary, tetralogy of Fallot with: report of two surgical cases (Castaneda and Kirklin), 467
Wire, running, median sternotomy closure with: simplified method (Rubio et al.), 651
Wounds, chest, penetrating, prophylactic antibiotics in treatment of: prospective double-blind study (Grover et al.), 528
